

Interoffice Memo

DATE: October 25, 2021

FROM: Curtis Scott, Assistant Chief Procurement Officer for Transportation Services

TO: Treasury Young, Chief Procurement Officer

SUBJECT RFQ-484-051121; Batch #1 – 2021 Engineering Design Services, Contract 9 - PI #0017737, Towns County Ranking Approval

The Office of Procurement's Transportation Services Procurement Section has reviewed and evaluated Statements of Qualifications, Technical Approach, and Past Performance for the above referenced project.

Attached for your review is one (1) set of the following:

- Advertisement and all Addendums
- Consultants' Submission Prescreening Checklist Phase I
- GDOT Guide for Selection Committee Members (Phase I and II)
- Preliminary Ratings and Comments from Evaluators
- Selection Committee Ratings for Top Respondents Phase I
- Selection Committee Comments for Top Respondents Phase I
- Area Class Checklist
- Selection of Finalists Notification and Notice to Selected Finalists
- Consultants' Submission Prescreening Checklist Phase II
- Selection Committee Overall Ratings for Phase I and Phase II
- Selection Committee Comments for Finalists Phase II
- Past Performance Reference Checks and any available additional documentation
- Verification of Non-Debarment from SAM Website for Intended Awardee and Team
- Prequalification Certificate for Intended Awardee

The five (5) highest firms in order of ranking are as follows:

- 1. Parsons Transportation Group, Inc.
- 2. Kimley-Horn and Associates, Inc.
- 3. NV5 Engineers and Consultants, Inc.
- 3. Atlas Technical Consultants, LLC
- 5. Infrastructure Consulting & Engineering, PLLC

The Selection Committee recommends the selection of the top ranked firm, Parsons Transportation Group, Inc.

Concurrence with Award from Responsible Division Director:

Certification Procurement Requirements Met:

Albert Shelby, Director of Program Delivery

Request for Qualifications

To Provide

Batch #1 – 2021 Engineering Design Services

RFQ-484-051121 Qualifications Due: May 11, 2021

Georgia Department of Transportation One Georgia Center 600 West Peachtree Street, NW Atlanta, Georgia 30308

v. 9-18-19

REQUEST FOR QUALIFICATIONS

484-051121

Batch #1 - 2021 Engineering Design Services

Each Statement of Qualification (SOQ) submittal will require one (1) Contract Consideration Checklist sheet similar to the last page of this RFQ, indicating **ALL** of the contract(s) a firm have submitted SOQs for under RFQ-484-051121. This form is to ensure all SOQs submitted are accounted for and included in the correct Contract evaluation package.

| Contract # | PI # | County | Project Description |
|------------|---------|-----------------|--|
| 1 | 0013064 | Meriwether/Pike | SR 109 FROM SR 41/MERIWETHER TO SR 18/PIKE |
| 2 | 0013591 | Catoosa | SR 3 FROM SR 151 TO SR 146 |
| 3 | 0017729 | Dawson | SR 53 @ THOMPSON CREEK |

| 12 | 0017845 | Fulton | SR 141 @ CS 119/STATE BRIDGE ROAD |

I. General Project Information

A. Overview

The Georgia Department of Transportation (GDOT) is soliciting Statement of Qualifications (SOQs) from qualified firm(s) to provide Engineering Design Consultant Services for the projects listed below (note that certain projects may be grouped with other projects and awarded as one (1) contract).

This Request for Qualifications (RFQ) seeks to identify potential providers for the Scope of Services for the project/contract listed in Exhibit I -1 thru Exhibit I-12. Firms that respond to this RFQ, and are determined by GDOT to be sufficiently qualified, may be deemed eligible, and invited to offer a technical approach and/or possibly present and/or interview for these services. All respondents to this RFQ are subject to instructions communicated in this document, and are cautioned to completely review the entire RFQ and follow instructions carefully. GDOT reserves the right to reject any or all Statements of Qualifications or Technical Approach, and to waive technicalities and informalities at the discretion of GDOT.

B. IMPORTANT- A RESTRICTION OF COMMUNICATION IS IN EFFECT FOR THIS PROJECT.

From the advertisement date of this solicitation until successful respondents are selected and the award is made official and announced, firms are not allowed to communicate about this solicitation or scope with any staff of GDOT including the Commissioner and GDOT Board Members, except for the submission of questions as instructed in the RFQ, or with the contact designated in **RFQ Section VIII.C.**, or as provided by any existing work agreement(s). For violation of this provision, GDOT reserves the right to reject the submittal of the offending respondent.

C. The Georgia Department of Transportation Board has adopted a 16% overall annual goal for DBE participation on all federally funded projects. This goal is not to be considered as a fixed quota, set aside or preference. The DBE goal can be met by prime contracting, sub-contracting, joint-venture or mentor/ protégé relationship.

Georgia Department of Transportation will monitor and assess each consultant services submittals for their DBE participation and/or good faith effort in promoting equity and opportunity in accordance with the state of Georgia, Department of Transportation Disadvantage Business Program Plan.

For more information on the GDOT DBE Program please contact:

Georgia Department of Transportation Equal Opportunity Division One Georgia Center, 7th Floor 600 West Peachtree Street, NW Atlanta, Georgia 30308 Phone: (404) 631-1972

D. Scope of Services

Under the terms of the resulting Agreements, the selected consultants will provide full engineering design services, for each GDOT Project(s) identified. The anticipated scope of work for each project/contract is included in **Exhibit I-1 thru Exhibit I-12.**

In addition, GDOT desires that the Consultant have the ability to provide, either with its own forces or through a sub-consultant team member, comprehensive services necessary to fulfill all preliminary engineering services which may arise during the project cycle.

E. Contract Term and Type

GDOT anticipates one (1) Multi-Phase, Project Specific contract to be awarded to one (1) firm, for each project/contract identified. GDOT anticipates that the Contract Payment may be Lump Sum, Cost Plus Fixed Fee, Cost per Unit of Work or Specific Rate of Compensation. As a Project Specific contract, it is the Department's intention that the Agreements will remain in effect until successful completion of the preliminary engineering phase of the projects, and may choose to utilize the selected consultant for use on construction revisions as necessary.

F. Contract Amount

Each Multi-Phase, Project Specific contract amount will be determined via negotiations with the Department. If the Department is unable to reach a satisfactory agreement and at reasonable rates to be paid for the services to be provided, the Department reserves the right to terminate negotiations with the highest scoring finalist and begin negotiations with the next highest scoring finalist.

II. <u>Selection Method</u>

A. Method of Communication

All general communication of relevant information regarding this solicitation will be made via the Georgia Procurement Registry (GPR) under RFQ-484-051121. All firms are responsible for checking the GPR on a regular basis for updates, clarifications, and announcements. GDOT reserves the right to communicate via electronic-mail with the primary contact listed in the Statements of Qualifications. Other specific communications will be made as indicated in the remainder of this RFQ.

B. Phase I - Selection of Finalists

Based on the Statements of Qualifications submitted in response to the projects/contracts listed in this RFQ, the Selection Committee will review the **Experience and Qualifications** and **Resources and Workload Capacity** listed in **Section IV. Selection Criteria for Phase I**. The Selection Committee will discuss the top submittals and the final rankings of the top submittals will be determined. From the final rankings of the top submittals, the Selection Committee will identify three (3) to five (5) firms which will be shortlisted.

All firms must meet the minimum requirements as listed in **Section IV.A.** below.

C. Finalist Notification for Phase II

Firms selected and shortlisted as finalists will receive notification and final instructions from GDOT regarding the **Phase II – Technical Approach** response.

D. Phase II - Finalists Response on Technical Approach and Past Performance

GDOT will request a **Technical Approach** of the three (3) to five (5) finalist firms for the project/contract. GDOT reserves the right to request a presentation/interview on any project/contract as determined in its best interests; however, this additional requirement shall typically be reserved for the most complex projects. Each finalist firm shall be notified in writing and informed of the Technical Apprach due date. Any additional detailed Technical Approach instructions and requirements, beyond that provided in **Section V. Selection Criteria for Phase II**, for the finalists will be provided in the Finalist Notification. All members of the Selection Committee will review the Technical Approach (and will attend the presentation/interview if so chosen). Firms shall not address any questions, prior to the award announcement, to anyone other than the designated contact.

E. Final Selection

Final selection will be determined by carrying the scores from **Phase I** forward for each Finalist and by evaluating the **Technical Approach** and **Past Performance** criteria for **Phase II**. The Selection Committee will discuss the Finalist's Phase II Responses and the final rankings will be determined.

Negotiations will then be initiated with the top-ranked firm(s) to finalize the terms and conditions of the contract(s), including the fees to be paid. In the event a satisfactory agreement cannot be reached with the highest-ranking firm(s), GDOT will formally terminate the negotiations and possibly enter into negotiations with the second highest-ranking firm, and so on in turn until a mutual agreement is established and GDOT awards a contract. The final form of the contract shall be developed by GDOT.

III. Schedule of Events

The following Schedule of Events represents GDOT's best estimate of the Schedule that will be followed. All times indicated are prevailing times in Atlanta, Georgia. GDOT reserves the right to adjust the Schedule as GDOT deems necessary.

| PHASE I | DATE | TIME |
|--|------------|---------|
| a. GDOT issues public advertisement of RFQ-484-051121 | 04/09/2021 | |
| b. Deadline for submission of written questions and requests for clarification | 04/26/2021 | 2:00 PM |
| c. Deadline for submission of Statements of Qualifications | 05/11/2021 | 2:00 PM |
| d. GDOT completes evaluation and issues notification and other information to finalist firms | TBD | |
| PHASE II | | |
| e. Deadline for submission of written questions from finalists | TBD | 2:00 PM |
| f. Phase II Response of Finalist firms due | TBD | ТВА |

IV. Selection Criteria for Phase I - Criteria for Evaluation of Statements of Qualifications

A. Area Class Requirements and Certification

Presented teams must be prequalified in the indicated Area Class(es) in order to be evaluated. Required proof of prequalification shall be submitted as indicated in **Section VI.C.4.** below. All Submittals will be pre-screened to verify that the Prime consultant has the required Area Class(es) and that the overall team has the required Area Class(es). Any submittal in which the Prime consultant or the overall team area class requirements are not met will be disqualified from further consideration.

Each submittal will require a certification to allow the Department to analyze risks in determining if any Firm should be ineligible for award. The certification shall cover a wide variety of information. Any firm which responds in any potentially concerning manner must provide additional information as directed herein for consideration by GDOT to determine if Firm is eligible for award.

B. Project Manager, Key Team Leader(s) and Prime's Experience and Qualifications – 20%

The Selection Committee will evaluate all firms on their Experience and Qualifications, which shall account for a total of twenty (20%) percent of the total evaluation. The following criteria for scoring Phase I of the evaluation will be utilized to determine which firms are shortlisted:

- 1. Project Manager education, registration, relevant engineering experience, relevant project management experience, experience in utilizing GDOT specific processes, manuals, or guidance.
- 2. Key Team Leaders' education, registration, relevant technical experience, and relevant experience in utilizing GDOT specific processes, manuals, or guidance.
- 3. Prime Consultant's experience in delivering projects of similar complexity, size, scope, and function.

C. Project Manager, Key Team Leader(s) and Prime's Resources and Workload Capacity – 30%

The Selection Committee will evaluate all firms on their Resources availability and Workload Capacity which shall account for a total of thirty (30%) percent of the total evaluation. The following criteria for scoring the Resources and Workload Capacity will be utilized to determine which firms are shortlisted:

- 1. Project Manager Workload
- 2. Workload capacity of Key Team Leader(s)
- 3. Resources dedicated to delivering project
- 4. Ability to Meet Project Schedule

V. <u>Selection Criteria for Phase II</u> - Criteria for Evaluation of Technical Approach and Past Performance

A. Technical Approach – 40%

The Selection Committee will evaluate the shortlisted firms (Finalists) on their Technical Approach, which shall account for a total of forty (40%) percent. The Selection Committee shall utilize the following additional criteria for scoring Phase II of the evaluation to determine the highest ranked/most qualified (NOTE: Scores from Phase I will be carried forward and combined with the scores from the Phase II to determine the final ranking of Finalists):

- 1. Provide any unique technical approaches your firm offers relative to addressing anticipated design concepts, use of any alternative methods for delivery (if applicable), and/or management of the project.
- 2. Identify any unique challenges of the project and how your firm intends to mitigate these challenges, including quality control, quality assurance procedures.
- 3. Provide any specific qualifications, skills, knowledge of the project and project area which may uniquely benefit the firm and project, and your ability and willingness to meet time requirements.

B. Past Performance – 10%

The Selection Committee may consider information provided via references provided for relevant projects, knowledge any selection committee member has of performance on relevant projects, and performance evaluations or knowledge presented on GDOT projects. The Selection Committee will consider all factors in their totality and score from 0 to 10 when arriving at a final score for the Past Performance.

VI. Instructions for Content and Preparation of Statements of Qualifications - Phase I Response

The Statements of Qualifications submittal must be submitted in accordance with the instructions provided in Section VIII, and must be <u>organized, categorized using the same headings (in red), and</u> <u>numbered and lettered</u> exactly as outlined below, and must be responsive to all requested information. For the sections in which page number limits are stated, each section with a stated limit must begin on a new page and end on the last page allowed for the section. It is not allowed to begin new sections on a page allowed for a previous section, if applicable. This will enable the Department to ensure compliance with the page limitations.

Cover page – Each project/contract submittal must have a separate cover page for each copy of each submittal for each project/contract and each must list the RFQ#, RFQ Title, proposing firm's full legal name and the specific project contract being submitted on to include the Project Numbers, PI Numbers, County(ies), and Description.

A. Contract Consideration Checklist

Each Statement of Qualification (SOQ) submittal should include one (1) Contract Consideration Checklist sheet similar to the one shown on the last page of the RFQ, indicating all of the contract(s) a firm have submitted SOQs for under RFQ-484-051121. This one (1) checklist will ensure that **ALL** SOQs submitted are accounted for and included in the correct evaluation package(s). In the event that there are inconsistencies between the contract number(s) and the PI number(s) indicated on a firm's SOQ cover page, the PI number(s) indicated will prevail to determine which contract a firm will be considerated for. QA/QC is a must to ensure the correct contract submittal.

B. Administrative Requirements

It is required to submit the information below for each copy of each submittal. This is general information and will not be scored but may be used to determine eligibility for selection. Under Administrative Requirements section, only submit the information requested; additional information will be subject to disqualification of your firm.

- 1. Basic company information:
 - a. Company name.
 - b. Company Headquarter Address.
 - c. Contact Information Name and all contact information (telephone number(s) and e-mail address) of primary proposing contact (this will be the individual with whom the Department will direct all communications).
 - d. Company website (if available).
 - e. Georgia Addresses Identify and provide addresses for the offices located in the State of Georgia.
 - f. Staff List the number and disciplines of staff members employed in each office in the State of Georgia.
 - g. Ownership Provide form of ownership, including state of residency or incorporation, and number of years in business. Is the Offeror a sole proprietorship, partnership, corporation, limited liability Corporation, or other structure?
- 2. Certification Form Complete the Certification Form (*Exhibit "II" enclosed with RFQ*), and provide a notarized original within the firm's Statement of Qualifications. This is to be submitted for the Prime **ONLY**.
- Georgia Security and Immigration Compliance Act Affidavit Complete the form (Exhibit "III" enclosed with RFQ), and provide a notarized original within the firm's Statement of Qualifications. This is to be submitted for the Prime ONLY.
- 4. Addenda Signed cover page of any Addenda issued for the Prime **ONLY**.

C. Experience and Qualifications

- 1. Project Manager Provide information pertaining to the project manager, including but not limited to:
 - a. Education.
 - b. Registration (if necessary and applicable.)
 - c. Relevant engineering experience.
 - d. Relevant project management experience for projects of similar complexity, size, scope, and function.

e. Relevant experience utilizing GDOT specific processes, manuals, or guidance (Plan Development Process, Design Policy, Environmental Procedures Manual, etc.).

This information is limited to two (2) pages maximum.

- Key Team Leaders Provide experience of Key Team Leaders (defined as those individuals who oversee project areas determined as particularly important to each specific project, refer to the Project Description in Exhibit I-1 thru Exhibit I-12, specifically Section 7 for the list of Key Team Leaders for each Project). For each Key Team Leader identified provide:
 - a. Education.
 - b. Registration (if necessary and applicable.)
 - c. Relevant experience in the applicable resource area of the most relevant projects.
 - d. Relevant experience utilizing GDOT specific processes, manuals, or guidance (PDP, Design Policy, Environmental Procedures Manual, etc.) which are specific to the key team leader's area.

This information is limited to one (1) page maximum for each Key Team Leader identified in Section 7 of each Exhibit I-1 thru Exhibit I-12. Respondents submitting more than one (1) page for each Key Team Leader identified will be subject to disqualification. Respondents who provide more Key Team Leaders than what is outlined in the requirement will be subject to disqualification as this would provide an advantage over firms who complied with the requirement and had the required number of Key Team Leaders. Respondents who do not provide the required Key Team Leaders will be subject to disqualification as this does not meet the requirements of the project and therefore would deem the respondent and its team unqualified for the award.

- Prime Experience Provide information on the prime's experience and ability in delivering effective services for projects of similar complexity, size, scope, and function, which demonstrate the firm's capabilities to provide services for GDOT. For each project, the following information should be provided:
 - a. Client name, project location and dates during which services were performed.
 - b. Description of overall project and services performed by your firm.
 - c. Duration of project services provided by your firm, and overall project budget.
 - d. Experience utilizing GDOT specific processes, manuals, or guidance (PDP, Design Policy, Environmental Procedures Manual, etc.)
 - e. Client(s) current contact information including contact names, telephone numbers and e-mail address.
 - f. Involvement of Key Team Leaders on the projects.

This information is limited to two (2) pages maximum.

4 Area Class Summary Form and Notice of Professional Consultant Qualifications - Prime Consultants are defined as the firm submitting the Statement of Qualifications and the firm with whom GDOT will contract. The Team is defined as the Prime Consultant and their sub-consultants, who are considered team members. Prime Consultants and their sub-consultant team members must meet the Area Class requirements listed in Exhibit I-1 thru Exhibit I-12 for each project on which they apply. In regards to the required Area Classes, for each project/contract on which they apply, respondents should submit a summary form (example provided in Exhibit IV) which details the required area classes for the Prime Consultant and all sub-consultants or jointventure of consultants on the team listed in the Statement of Qualifications. The area classes and firm's meeting the area classes listed on the summary form must meet all required area classes or the team will be disgualified. If a team member's pregualification will expire prior to the due date of the SOQs, documentation must be provided which shows that the firm has submitted its application for pregualification prior to the SOQ due date. The team must maintain its pregualification certification in order to be considered eligible for award if selected. Additionally, respondents should submit the Notice of Professional Consultant Qualifications (for the Prime Consultant and all sub-consultants for each project) issued by GDOT and attach after the Area Class summary form.

This information is limited to the one page for the Area Class table (unless the project needs require an extensive list of area classes) and the required Notice of Professional Consultant Qualifications.

D. Resources/Workload Capacity

- 1. Overall Resources Provide information regarding the overall resources dedicated to delivering the specific project, including:
 - a. Organizational chart which identifies the project manager, prime, Key Team Leaders, support personnel, and reporting structure. This chart may be submitted on a 11" x 17" page. (Excluded from the page count)
 - b. Primary Office Identify and discuss the primary office which will be responsible for handling the specific project and the number and types of staff within the office and how this office could benefit the project and promote efficiency. This information to be included on the one (1) page with the Narrative on Additional Resource Areas and Ability.
 - c. Narrative on Additional Resource Areas and Ability Respondents are to provide information regarding additional resource areas identified as important to the project, to discuss how the key areas will integrate and work together on the project, to discuss any information which is pertinent to these areas, to provide a narrative regarding how the organization of the team, including the PM and Key Team Leaders can deliver the project on schedule given their workload capacity. (GDOT recognizes that some individuals may be able to meet the schedule while carrying heavier project loads.) Respondents may discuss the advantages of your team and the abilities of the team members which will enable the project to meet the proposed schedule, discuss the advantages of the team and the abilities of the team members which will enable the project to meet the project to move as expeditiously as possible. Respondents submitting more than the one (1) page allowed (combined for D1.b. and D1.c.) will be subject to disqualification.
- 2. Project Manager Commitment Table Provide a list of ALL projects (GDOT, other governments and private contracts Information may be validated and any firm determined not to be listing all projects may be subject to disqualification) on which the proposed project manager is currently committed, to enable the Department to ascertain the project manager's availability. Utilize a table similar to the following format with a minimum of all criteria indicated to provide the requested information:

| Project Manager | PI/Project # for GDOT Projects/Name of Customer for Non-GDOT Projects | Role of PM on Project | Project Description | Current Phase of Project | Current Status of Project | Monthly Time Commitment in Hours |
|--------------------|--|--------------------------|------------------------|-----------------------------|------------------------------|--|
| | | | | | | |
| | | | | | | |
| | | | | | | |

Key Team Leader Project Commitment Table - Provide a table similar to the below, with a minimum of all criteria indicated, which identifies ALL projects the Key Team Leaders (refer to the Project Description in Exhibit I-1 thru Exhibit I-12, specifically Section 7 for the list of Key Team Leaders for each Project) are committed on to enable the Department to ascertain the available capacity.

| Key Team Leader | PI/Project # for GDOT Projects/Name of Customer for Non-GDOT Projects | Role of Key Team Leader on Project | Project Description | Current Phase of Project | Current Status of Project | Monthly Time Commitment in Hours |
|-----------------------|--|---|------------------------|-----------------------------|------------------------------|--|
| | | | | | | |
| | | | | | | |
| | | | | | | |

This information is limited to the organization chart (excluded from page count), one (1) page combined of text (for both the Primary Office and Narrative on Resource Areas and Ability), and the tables.

VII. Instructions for Preparing Technical Approach and Past Performance Response – Phase II Response

The following information will only be requested of the shortlisted firms. The Selection Committee will evaluate the shortlisted firms using the information provided as requested below (NOTE: Scores from Phase I will be carried forward to Phase II):

The Phase II response must be submitted in accordance with the instructions provided in Section IX, and must be organized, categorized using the same headings (in red), and numbered and

lettered exactly as outlined below, and must be responsive to all requested information. For the sections in which page number limits are stated, each section with a stated limit must begin on a new page and end on the last page allowed for the section. It is not allowed to begin new sections on a page allowed for a previous section, if applicable. This will enable the Department to ensure compliance with the page limitations.

Phase II Cover page – Each submittal must have a separate cover page for each copy of each Phase II submittal and each must indicate the response is for Phase II, list the RFQ#, RFQ Title, proposing firm's full legal name and the specific project contract being submitted on to include the Project Numbers, PI Numbers, County(ies), and Description.

A. <u>Technical Approach</u>

- 1. Provide any unique technical approaches your firm offers relative to addressing anticipated design concepts, use of any alternative methods for delivery (if applicable), and/or management of the project.
- 2. Identify any unique challenges of the project and how your firm intends to mitigate these challenges, including quality control, quality assurance procedures.
- 3. Provide any specific qualifications, skills, knowledge of the project and project area which may uniquely benefit the firm and project, and your ability and willingness to meet time requirements.

This information will be limited to a maximum of three (3) pages.

B. Past Performance

No additional information should be submitted to fulfill this requirement. Information from the relevant projects listed as well as information on file with the Department will be used to fulfill this requirement.

Past performance may be evaluated through the checking of project references for the proposed project manager as well as the firm. The Department will check these references at random. For this reason, attention should be paid to the references provided to ensure that the contact information provided is accurate and the individual references are reachable. Other past performance information which may be utilized includes GDOT consultant performance ratings as well as knowledge that any member of the Selection Committee has pertaining to the past performance of the firm on any project.

VIII.Instructions for Submittal for Phase I - Statements of Qualifications

- A. There is one (1) electronic version submittal required. The Submittal must follow the format and meet the content requirements identified in Section VI, entitled <u>Instructions for Content and Preparation of Statements of Qualifications Phase I Response.</u> See Attachment 1 for a summary of how the submittals should be prepared.
- B. Submittals must be typed on standard (8½" x 11") paper. The pages should be numbered, however, submittal pages will be counted by section to determine compliance with page limits. Responses are limited to the page counts indicated in each section using a minimum of size 11 font. Page counts will be determined by pages with print on them, not by the physical piece of paper. Each Statement of Qualifications shall be prepared simply and economically as indicated above. Colored displays, and promotional materials are not desired. Emphasis must be on completeness, relevance, and clarity of content.

NOTE: Additional pages other than what has been specified above in each section should not be included and will be grounds for disqualification. Submittals are limited to the information requested in Section VI. Instructions for Content and Preparation of Statements of Qualifications - Phase I Response only. Hyperlinks or embedded video are not allowed.

Statements of Qualifications submittals must be a PDF document for each project/contract. Each PDF document must follow the naming convention for electronic records as follows: the proposing firm's full legal name, RFQ#, RFQ Title and the specific project contract number being submitted on. To submit your Statement of Qualification click the following Links:

Contract 1: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%201%20 Contract 2: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%202%20 Contract 3: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%203%20 Contract 4: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%204%20 Contract 5: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%205%20 Contract 6: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%206%20 Contract 7: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%206%20 Contract 8: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%207%20 Contract 9: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%208%20 Contract 10: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%209%20 Contract 11: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%2010%20 Contract 12: mailto:tsp_soq_tech_submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%2010%20

If a firm is responding to multiple projects/contracts, each submittal must be e-mail separately using the naming convention for electronic records, and **submission link provided**. Upon successful receipt of the electronic submittal, the system will send a receipt confirmation e-mail to the sender. If you do not receive an email receipt confirmation for your submittal within one (1) hour of your submittal, please contact Folayan Battle at fbattle@dot.ga.gov.

Statements of Qualifications **must be received by GDOT** prior to the deadline indicated in the Schedule of Events (*Section III of RFQ*).

No submittals will be accepted after the time and date set for receipt.

All expenses for preparing and submitting responses are the sole cost of the party submitting the response. GDOT is not obligated to any party to reimburse such expenses. All submittals upon receipt become the property of GDOT. Labeling information provided in submittals "proprietary" or "confidential", or any other designation of restricted use will not protect the information from public view. Subject to the provisions of the Open Records Act, the details of the proposal documents will remain confidential until final award.

GDOT reserves the right, in its sole discretion, to waive any technicalities associated with this submittal if deemed in the best interest of the State.

C. Questions and Requests for Clarification

Questions about any aspect of the RFQ, or the project, shall be submitted <u>in writing</u> via e-mail to: **Folayan Battle**, **e-mail:** <u>**fbattle@dot.ga.gov**</u>. The deadlines for submission of questions relating to the RFQ are the times and dates shown in the (**Schedule of Events- Section III**). From the issue date of this solicitation until a successful proposer is selected and the award is made official and announced, respondents are subject to the Restriction of Communication in **Section I.B.**

IX. Instructions for Submittal for Phase II – Technical Approach and Past Performance Response

THESE INSTRUCTIONS ARE INTENDED SOLELY FOR THOSE FIRMS IDENTIFIED AND NOTIFIED AS FINALISTS. Final Instructions will be provided to the Finalists in the notification.

Please note that each project/contract will follow an individual schedule which meets the availability of each Selection Committee. For this reason, the Notice to Selected Finalists and resulting Phase II responses may be on different schedules for each project/contract.

- A. There is one (1) electronic version submittal required. The Submittal must follow the format and meet the content requirements identified in Section VII, entitled <u>Instructions for Preparing Technical Approach and Past</u> <u>Performance Response Phase II Response.</u> See Attachment 1 for a summary of how the submittals should be prepared.
- B. Submittals must be typed on standard (8½" x 11") paper. The pages should be numbered, however, submittal pages will be counted by section to determine compliance with page limits. Responses are limited to the page counts indicated in each section using a minimum of size 11 font. Page counts will be determined by pages with print on them, not by the physical piece of paper. Each Statement of Qualifications shall be prepared simply and economically as indicated above. Colored displays, and promotional materials are not desired. Emphasis must be on completeness, relevance, and clarity of content.

NOTE: Additional pages other than what has been specified above in each section **should not be included and will be grounds for disqualification**. Submittals are limited to the information requested in Section VII. Instructions for Preparing Technical Approach and Past Performance Response-Phase II Response only. Hyperlinks or embedded video are not allowed.

C. Technical Approach submittal must be a PDF document for each project/contract. Each PDF document must follow the naming convention for electronic records as follows: the proposing firm's full legal name, RFQ#, RFQ Title and the specific project contract being submitted on. To submit your Technical Approach click the following Links:

Contract 1: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%201%20 Contract 2: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%202%20 Contract 3: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%203%20 Contract 4: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%204%20 Contract 5: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%205%20 Contract 6: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%205%20 Contract 7: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%207%20 Contract 8: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%207%20 Contract 9: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%208%20 Contract 10: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%209%20 Contract 11: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%201%20 Contract 12: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%201%20 Contract 12: mailto:tsp soq tech submittal@dot.ga.gov?subject=RFQ%20484-051121%20Contract%201%20

If a firm is responding to multiple projects/contracts, each submittal must be e-mail separately using the naming convention for electronic records, and **submission link provided**. Upon successful receipt of the electronic submittal, the system will send a receipt confirmation e-mail to the sender. If you do not receive an email receipt confirmation for your submittal within one (1) hour of your submittal, please contact Folayan Battle at fbattle@dot.ga.gov.

Technical Approach must be received by GDOT prior to the deadline indicated in Notice to Selected Finalists.

No submittals will be accepted after the time and date set for receipt.

All expenses for preparing and submitting responses are the sole cost of the party submitting the response. GDOT is not obligated to any party to reimburse such expenses. All submittals upon receipt become the property of GDOT. Labeling information provided in submittals "proprietary" or "confidential", or any other designation of restricted use will not protect the information from public view. Subject to the provisions of the Open Records Act, the details of the proposal documents will remain confidential until final award.

GDOT reserves the right, in its sole discretion, to waive any technicalities associated with this submittal if deemed in the best interest of the State.

No submittals will be accepted after the time and date set for receipt.

Responses submitted via facsimile or e-mail will be rejected. All expenses for preparing and submitting responses are the sole cost of the party submitting the response. GDOT is not obligated to any party to reimburse such expenses. All submittals upon receipt become the property of GDOT. Labeling information provided in submittals "proprietary" or "confidential", or any other designation of restricted use will not protect the information from public view. Subject to the provisions of the Open Records Act, the details of the proposal documents will remain confidential until final award.

GDOT reserves the right, in its sole discretion, to waive any technicalities associated with this submittal if deemed in the best interest of the State.

D. Questions and Requests for Clarification

Questions about any aspect of the Phase II Response for Finalists, shall be submitted <u>in writing</u> via e-mail to: Folayan Battle, e-mail: <u>fbattle@dot.ga.gov</u>. or as directed in the Notice to Selected Finalists, if different. The deadlines for submission of questions relating to the Phase II Response will be identified in the Notice to Selected Finalists. From the issue date of this solicitation until a successful proposer is selected and the award is made official and announced, respondents are subject to the Restriction of Communication in Section I.B.

X. GDOT Terms and Conditions

A. Statement of Agreement

With the submission of a SOQ, the respondent agrees that he/she has carefully examined the Request for Qualifications, and agrees that it is the respondent's responsibility to request clarification on any issues in any section of the Request for Qualifications with which the respondent disagrees or needs clarified. The respondent also understands that failure to mention these items during the question period or in the SOQ will be interpreted to mean that the respondent is in full agreement with the terms, conditions, specifications and requirements in the therein. With submission of a SOQ, the respondent hereby certifies: (a) that this SOQ is genuine and is not made in the interest or on behalf of any undisclosed person, firm, or corporation; (b) that respondent has not directly or indirectly included or solicited any other respondent to put in a false or insincere SOQ; (c) that respondent has not solicited or induced any person, firm, or corporation to refrain from sending a SOQ.

The respondent also understands that failure to provide required information may result in disqualification. Failure to provide administrative information may not result in disgualification. At the Department's discretion, the Department may notify the respondent that administrative information is not provided or there was an error in the information provided, and the Department will allow a respondent to provide an update to the administrative information. However, the exception to this is the provision of the required GEORGIA SECURITY AND **IMMIGRATION COMPLIANCE ACT AFFIDAVIT**, which by Georgia Law requires disgualification of the response. The above changes mentioned to administrative information would be considered allowable as these would be limited to changes which **do not** affect the information which the evaluators use to score the respondents. Failure of a respondent to provide the specific administrative information as required in the notice will result in disgualification. Any respondent who provides changes in addition to the information requested in the notice shall be subject to disqualification. Failure of a respondent's SOQ to provide any information pertaining to a respondent and its teams gualifications, of any type, will subject the SOQ to disgualification. The Department will not allow updates to qualifications to be provided to avoid disgualification as this would allow a respondent to modify its SOQ and alter the information which evaluators would score. The above changes related to qualifications would not be allowable as these would allow changes which do affect the information which the evaluators use to score the respondents SOQ.

B. Joint-Venture Proposals, Sub-Consultants, and Vendors

GDOT does not generally desire to enter into "joint-venture" agreements with multiple firms. In the event two or more firms desire to "joint-venture", it is strongly recommended that one incorporated firm propose and maintain status as the Program Management firm with the remaining firms participating as major firms. Any joint-venture, proposed and established as a separate business entity, should have its own set of books and supporting documentation sufficient for an audit trail. Transactions should be recorded consistent with the joint-venture agreement, and care must be taken to ensure that the joint-venture bears its equitable share of the costs. Therefore, "unpopulated joint-ventures" would not have an adequate accounting system suitable for cost reimbursement contracts.

However more traditional "populated joint-ventures" are welcomed. A populated joint-venture is where an alliance is brought to life by infusing it with working capital, employees, and control systems. The alliance implements all necessary business systems, including payroll processing, purchasing, property control, etc. The alliance will develop its own indirect rate structure and calculates its own indirect cost rates, based on the direct and indirect costs it incurs.

Sub-Consultants shall generally be considered any team member which is performing any service which typically requires prequalification, which is subject to the Audit and Accounting System Requirements, and whose services are billed as costs. Sub-Consultant Team Members must be written into the resulting Agreement and are subject to all terms and conditions in the Agreement. Vendors shall be considered any team member which is performing any service which typically does not require prequalification, which is not subject to the Audit and Accounting System Requirements, and whose services are billed as direct expenses. Vendors may not be written into the resulting Agreement and may not be subject to all terms and conditions in the Agreement.

C. Non-Discrimination and DBE Requirements

The Georgia Department of Transportation in accordance with Title VI of the Civil Rights Act of 1964 and 78 Stat. 252, 42 USC 2000d--42 and Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, part 21, Nondiscrimination in federally assisted programs of the Department of Transportation issued pursuant to such Act, hereby notifies all proposers that it will affirmatively ensure that any contract entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, sex, or national origin in consideration for an award.

The Georgia Department of Transportation Board has adopted a 16% overall annual goal for DBE participation on all federally funded projects. This goal is not to be considered as a fixed quota, set aside or preference. The DBE goal can be met by prime contracting, sub-contracting, joint-venture or mentor/ protégé relationship.

Georgia Department of Transportation will monitor and assess each consultant services submittals for their DBE participation and/or good faith effort in promoting equity and opportunity in accordance with the state of Georgia, Department of Transportation Disadvantage Business Program Plan.

For more information on the GDOT DBE Program please contact:

Georgia Department of Transportation Equal Opportunity Division One Georgia Center, 7th Floor 600 West Peachtree Street, NW Atlanta, Georgia 30308 Phone: (404) 631-1972

D. Audit and Accounting System Requirements

GDOT reserves the right to reject any proposal with firms that do not meet the following requirements:

- 1. Firm(s) should have an accounting system in place to meet requirements of 48 CFR Part 31 and, in the case of non-profit organizations, OMB Circular A-122.
- 2. Any firm that currently has an aggregate contract amount exceeding \$250,000 should have submitted their yearly CPA overhead audit.
- 3. Firm(s) should have no significant outstanding deficient audit findings from previous contracts with GDOT that have not been resolved.
- 4. The prime is responsible for being reasonably assured that all sub-consultant(s) presented as a part of the proposed team are similarly in compliance with the above requirements.

E. Submittal Costs and Confidentiality

All expenses for preparing and submitting responses are the sole cost of the respondent submitting the response. The Department is not obligated to any respondent to reimburse such expenses. All submittals upon receipt become the property of the Department. Labeling information provided in submittals as "proprietary" or "confidential", or any other designation of restricted use will not protect the information from public view. Subject to the provisions of the Open Records Act, the details of the proposal documents will remain confidential until a final award.

F. Award Conditions

This request is not an offer to contract or a solicitation of bids. This request and any proposal submitted in response, regardless of whether the proposal is determined to be the best proposal, is not binding upon the Department and does not obligate the Department to procure or contract for any services. Neither the Department nor any respondent submitting a response will be bound unless and until a written contract mutually accepted by both parties is negotiated as to its terms and conditions and is signed by the Department reserves the right to waive non-compliance with any requirements of this Request for Qualifications and to reject any or all proposal submitted in responses. Upon review of responses, the Department will determine the respondent(s) proposal that in the sole

judgment of the Department is in the best interest of the Department (if any is so determined), with respect to the evaluation criteria stated herein. The Department then intends to conduct negotiations with such respondent(s) to determine if an acceptable contract may be reached.

G. Debriefings

In lieu of Pre-Award and Post-Award debriefings, it shall be the Department's policy to provide the "Selection Package" at the time of the Selection Announcement (also referred to as the Announcement of Entering into Negotiations). The "Selection Package" will include the scores and comments of phases for all firms who responded and will typically be provided as a PDF file and e-mailed. Previously, pre-award debriefings only provided the scores and comments of the firm. It shall be the policy of the Department that all debriefings will typically be conducted in writing.

H. Right to Cancel or Change RFQ

GDOT reserves the right to cancel any and all Request for Qualifications where it is determined to be in the best interest of the Department to do so. GDOT reserves the right to increase, reduce, add or delete any item in this solicitation as deemed necessary.

It is the responsibility of all firms interested in submitting Statement of Qualifications (SOQs) for this advertisement to routinely check the posting on the Georgia Procurement Registry for any revisions to this RFQ.

I. Substitutions, Alternates, Exceptions, and Extensions

No substitutions or alternates will be accepted for this solicitation. Any respondent submitting substitutions or alternates will be considered non-responsive and will not be considered for award.

J. GDOT Code of Conduct Pertaining to Conflict of Interest in the Award and Administration of Contracts

Pursuant to GDOT Policy 3A-17, any GDOT employee who leaves the employment of the Department and subsequently becomes employed with a consultant firm and whose duties while employed with the Department included the direct involvement with the negotiation, administration, or management of a contract in which the firm is either the primary consultant or a sub-consultant <u>SHALL NOT</u> be authorized to work on that contract as an employee of that firm for a period of one (1) year after their employment ends.

Additionally, on July 1st of each year, any consultant firm that is under contract with the Department as a prime or sub consultant shall provide to the Department's Chief Procurement Officer (CPO) a current list of all former Department employees employed by the firm and a document that certifies the responsibilities of those employees as it relates to the current contracts with the Department. This certification document shall attest to the fact that over the last year no former Department employee that is employed by their firm has worked on a contract between the Department and their firm where that employee, when employed by the Department, had direct involvement with the selection, award and/or administration of the consultant contract. Any consultant firm entering into a contract with the Department for the first time as a prime or sub consultant shall provide the initial required list of former Department employees and certification prior to the contract effective date. If the Department's CPO determines at any point during a contract that an actual conflict exists as it relates to the above paragraph, then the CPO shall have the authority to issue a stop work order on that contract.

Project/Contract

- 1. Project Numbers: N/A
- 2. PI Number: 0013064
- 3. Counties: Meriwether/Pike
- 4. Description: SR 109 From SR 41/Meriwether To SR 18/Pike
- 5. Required Area Classes:

Prime Consultants are defined as the firm submitting the Statement of Qualifications and the firm with whom GDOT will contract. The Team is defined as the Prime Consultant and their subconsultants, who are considered team members. The Prime Consultant must be prequalified in the Area Classes identified below in Section 5.A. The Prime Consultant or subconsultant team members must be prequalified in the Area Classes identified below in Section 5.B. Respondents should submit a summary form (example provided in **Exhibit IV**) which details the required area classes for the Prime Consultant and all subconsultants or joint venture of consultants on the team listed in the Statement of Qualifications. The area classes listed on the summary form must meet all required area classes or the team will be disqualified. The Prequalification Expiration Date must be current by the deadline stated for this RFQ.

A. The **Prime Consultant <u>MUST</u>** be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|---------|-----------------------------------|
| 3.01 | Rural Roadway Design |
| 4.01(a) | Minor Bridge Design |
| OR | |
| 4.01(b) | Minor Bridge Design - CONDITIONAL |

B. The **Team** (either the Prime Consultant and/or one or more of their subconsultant team members) <u>MUST</u> be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|---------|--|
| 1.06(b) | History |
| 1.06(c) | Air Studies |
| 1.06(d) | Noise Studies |
| 1.06(e) | Ecology |
| 1.06(f) | Archaeology |
| 1.06(g) | Freshwater Aquatic Surveys |
| 1.07 | Attitude, Opinion, and Community Value Studies (Public Involvement) |
| 1.09 | Location Studies |
| 1.10 | Traffic Projections |
| 3.06 | Traffic Operations Studies |
| 3.07 | Traffic Operation Design |
| 3.12 | Hydraulic and Hydrological Studies (Roadway) |
| 4.04 | Hydraulic and Hydrological Studies (Bridges) |
| 5.01 | Land Surveying |
| 5.02 | Engineering Surveying |
| 5.04(a) | Aerial Photography/ Conventional Aircraft |
| OR | |
| 5.04(c) | Aerial Photography/ Unmanned Aircraft System (Design Grade) |
| 6.01(a) | Soil Survey Studies |
| 6.01(b) | Geological and Geophysical Studies |
| 6.02 | Bridge Foundation Studies |
| 6.05 | Hazardous Waste Site Assessment Studies |
| 9.01 | Erosion, Sedimentation, and Pollution Control Plan (ESPCP) Preparation |

6. Scope:

The Consultant shall provide development of the environmental document, including all required special studies (Air, Noise, History, Archaeology and Ecology), concept report, preliminary construction plans, signing and marking plans, final right-of-way plans (including revisions), erosion control plans, preliminary and final roadway plans, staging plans and final construction plans (including revisions through project final acceptance) and construction services. All required engineering studies are considered part of the Scope of Services.

All deliverables shall be in accordance with, but not limited to, the Plan Development Process (PDP), Electronic Data Guidelines (EDG), GDOT Design Policy Manual, GDOT Drainage Manual, GDOT Bridge and Structures Design Manual, Plan Presentation Guide, Georgia Environmental Policy Act (GEPA) and the GDOT Environmental Procedures Manual.

The Consultant shall provide:

- A. Scoping:
 - Analyze project corridor for potential improvement types and locations that meet the defined capacityimprovement purpose and scope of the project. Such alternatives may include developing the corridor as part of a freight route that connects I-85 near Lagrange and I-475 in Macon; segregating the project into multiple projects including bypasses around impacted cities; or limiting the project to addition of passing lanes and/or turn lanes.
 - 2) Conduct Traffic Studies.
 - 3) Develop traffic projections based on both historic project-specific data and potential changes resulting from development of corridor to a targeted freight corridor.
 - Compile a matrix of potential improvements with associated costs for each, and a draft prioritization (Cost/Benefit Analysis). Right-of-way cost estimates must be completed by a GDOT prequalified right-of-way consultant.
 - 5) Provide recommendations for specific improvements to be separated/bundled as potential stand-alone projects. The focus of this process will be to expedite the implementation of those projects that can benefit from accelerated design, permitting, and construction.
 - 6) Initial Concept Team Meeting Preparation and Attendance Prepare and discuss the matrix and recommendations to GDOT staff to derive an approved list of improvements to implement.
 - 7) Prepare Concept Layouts and alignment alternatives for the selected improvements.
 - 8) Concept Meeting Preparation and Attendance.
 - 9) Concept Design Data Book.
 - 10) Approved Concept Report.
 - 11) Approved Public Involvement Plan Plan must be approved by State Communications Office.
 - 12) Compile and maintain contact list of pertinent stakeholders, including, but not limited to individuals; businesses; regulatory agencies; local, State and Federal government officials; emergency service providers, and utilities.
 - 13) Coordinate the project's goals and scope with those of PI #s 0008674, 0013063, 0013065, 0013066, and 0013067, and other abutting projects, with the GDOT Planning Office and the Office of Program Delivery.
 - 14) Prepare for and attend one (1) Public Information Open House (PIOH).
 - 15) Prepare for and attend up to four (4) Stakeholder or Citizen Advisory Committee (CAC) meetings.
- B. Data Collection:
 - 1) Conduct AM & PM Peak Period turning movement counts on SR 109 and all approaches to SR 109.
 - 2) Conduct 24-hour classification counts on SR 109 and all on-system approaches to SR 109.
 - Conduct early coordination with local governments, regulatory agencies, and targeted stakeholders (e.g., churches, emergency response providers and hospitals, business owners, civic groups) as directed and maintain records of communication.

C. Concept Report:

- 1) Traffic Studies.
- 2) Conceptual construction cost estimate(s) and conceptual right-of-way estimate(s) using GDOT prequalified right-of-way consultant.
- 3) Prepare concept layouts and alignment alternatives.
- 4) Initial Concept Meeting Preparation and Attendance.
- 5) Approved Concept Report.
- 6) Concept Design Data Book.
- 7) Concept Meeting Preparation and Attendance.

- D. Environmental:
 - 1) Perform Ecology Resources survey and prepare Ecology Survey Report.
 - 2) Agency coordination, including multiple meetings to ensure consistency of expectations, design, and clearance limits under each project.
 - 3) Perform Historic Resources Survey and Prepare Report.
 - 4) Perform Archaeological Resources Survey and Prepare Report.
 - 5) Mitigation Credits Screening.
 - 6) Aquatic Survey and Report.
 - 7) Prepare for and attend Public Involvement (Public Information Open House (PIOH)/Public Hearing Open House (PHOH)/Noise Wall Meetings) and associated coordination with GDOT. One (1) PIOH anticipated.
 - 8) Terrestrial Protected Species Survey and Report.
 - 9) TPro and P6 updates.
 - 10) Prepare for and attend A3M Meeting.
- E. Preliminary Design:
 - 1) Complete Preliminary Roadway Plans:
 - a. Preliminary Signing and Marking Plans.
 - b. Preliminary Signal Plans.
 - c. Preliminary Staging & Erosion Control Plans.
 - 2) Preliminary Bridge Layouts and hydraulic studies.
 - 3) Cost Estimation with annual updates.
 - 4) Quality Assurance/Quality Control (QA/QC) Reviews.
 - 5) Location and Design Report.
 - 6) Preliminary Field Plan Review (PFPR) participation, report, and responses (All plan sets and other information requested by Engineering Services).
 - 7) Traffic Studies.
 - 8) Preliminary Construction Plans.
 - 9) Prepare Federal Emergency Management Agency (FEMA) Floodplain Studies, Draft and Final No-Rise Certifications.
 - 10) Pavement Evaluation/UST & Monitoring wells/Soil Survey.
 - 11) Pavement Type selection.
 - 12) Constructability Review meeting.
 - 13) Approved Pavement Design.
- F. Survey:
 - 1) Aerial Photogrammetry/Mapping using GDOT provided aerial photography and LIDAR data.
 - 2) Survey Control.
 - 3) Complete Survey Database.
 - 4) Property Information and Owners (with updates).
 - 5) Complete stream hydraulic surveys streams.
 - 6) Extend survey limits (if necessary).
 - 7) Survey package report.

G. Right-of-Way (ROW) Plans:

- 1) Attend ROW/Utility Team Meeting.
- 2) Prepare, Revise, and deliver final Right-of Way plans.
- 3) Coordinate field review of right-of-way plans and staking.
- 4) Right-of-Way revisions during acquisitions.
- 5) Coordination with the GDOT Right-of-Way Office during acquisitions.
- 6) Location & Design Approval.
- H. Final Design:
 - 1) Final Field Plan Review (FFPR) participation, report and responses (All plans sets and other information requested by Engineering Services).
 - 2) Erosion Control Plans.

- 3) Quality Assurance/Quality Control Reviews.
- 4) Corrected FFPR Plans.
- 5) Cost Estimation System (CES) Final cost estimate.
- 6) Final Plans, Specifications and Estimates (PS&E) Package.
- 7) Amendments & Revisions.
- 8) Final Design Data Book.
- 9) Complete Final Roadway Plans:
 - a. Final Signing and Marking Plans.
 - b. Final Signal Plans.
 - c. Final Staging & Erosion Plans.
 - d. Final Bridge Plans.
- 10) Utility Plans:

Utility Relocation Plans.

- 11) Update all Environmental Special Studies Reports:
 - a. History.
 - b. Ecology.
 - c. Archaeology.
 - d. Air.
 - e. Noise.
 - f. Freshwater Aquatic and other protected species surveys, as needed.
- 12) Pavement Evaluation.
- 13) Special Provisions.
- I. Construction:
 - 1) Use on Construction Revisions.
 - 2) Site Condition Revisions.
 - 3) Shop Drawings.
- J. Quality Assurance/Quality Control Reviews for all deliverables.
- K. Attendance in and meeting minutes of monthly meetings to discuss progress and/or issues (Additional meetings may be required to resolve major project issues).
- L. Prepare, reproduce, and distribute Preliminary Field Plan Review (PFPR) and Final Field Plan Review (FFPR) Package, address/respond to comments, and make plan changes. The Consultant shall provide written responses to all Field Plan Review Reports to the Department's project manager no later than 48 hours prior to the distribution deadline.
- M. Prepare, reproduce, and distribute preliminary and final plans and all supporting disciplines (signing and marking, erosion control, R/W, Utilities) as well as all special provisions, all design files, and supporting documentation.
- 7. Related Key Team Leaders:
 - A. Roadway Design Lead
 - B. Bridge Design Lead
 - C. Environmental Lead
- 8. An expected schedule includes the following milestone dates:
 - A. Notice to Proceed Q3 FY 2022
 - B. Scoping Report Q4 FY 2024
 - C. Right-of-Way Authorization Q2 FY 2030
 - D. Construction Authorization Q2 FY 2032

Project/Contract

- 1. Project Numbers: N/A
- 2. PI Numbers: 0013591
- 3. County: Catoosa
- 4. Description: SR 3 From SR 151 To SR 146
- 5. Required Area Classes:

Prime Consultants are defined as the firm submitting the Statement of Qualifications and the firm with whom GDOT will contract. The Team is defined as the Prime Consultant and their subconsultants, who are considered team members. The Prime Consultant must be prequalified in the Area Classes identified below in Section 5.A. The Prime Consultant or subconsultant team members must be prequalified in the Area Classes identified below in Section 5.B. Respondents should submit a summary form (example provided in **Exhibit IV**) which details the required area classes for the Prime Consultant and all subconsultants or joint venture of consultants on the team listed in the Statement of Qualifications. The area classes listed on the summary form must meet all required area classes or the team will be disqualified. The Prequalification Expiration Date must be current by the deadline stated for this RFQ.

A. The **Prime Consultant** <u>MUST</u> be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|---------|-----------------------------------|
| 3.01 | Rural Roadway Design |
| 3.02 | Urban Roadway Design |
| 4.01(a) | Minor Bridge Design |
| OR | |
| 4.01(b) | Minor Bridge Design - CONDITIONAL |

B. The **Team** (either the Prime Consultant and/or one or more of their subconsultant team members) **<u>MUST</u>** be prequalified by GDOT in the area classes listed below:

| | |
|---------|--|
| Number | Area Class |
| 1.06(a) | NEPA Documentation |
| 1.06(b) | History |
| 1.06(c) | Air Studies |
| 1.06(d) | Noise Studies |
| 1.06(e) | Ecology |
| 1.06(f) | Archaeology |
| 1.06(g) | Freshwater Aquatic Surveys |
| 1.07 | Attitude, Opinion, and Community Value Studies |
| 1.10 | Traffic Projections |
| 3.06 | Traffic Operations Studies |
| 3.07 | Traffic Operation Design |
| 3.12 | Hydraulic and Hydrological Studies (Roadway) |
| 4.04 | Hydraulic and Hydrological Studies (Bridges) |
| 5.01 | Land Surveying |
| 5.02 | Engineering Surveying |
| 5.04(a) | Aerial Photography/ Conventional Aircraft |
| OR | |
| 5.04(c) | Aerial Photography/ Unmanned Aircraft System (Design Grade) |
| 6.01(a) | Soil Survey Studies |
| 6.01(b) | Geological and Geophysical Studies |
| 6.02 | Bridge Foundation Studies |
| 6.05 | Hazardous Waste Site Assessment Studies |
| 9.01 | Erosion, Sedimentation, and Pollution Control Plan (ESPCP) Preparation |

6. Scope:

The Consultant shall provide development of the environmental document, including all required special studies (History, Air, Noise, History, Archaeology, Ecology, Freshwater Aquatic Surveys, and NEPA), concept report, preliminary construction plans, roadway and bridge hydraulic and hydrological studies, preliminary bridge plans, signing and marking plans, utility plans, final right-of-way plans (including revisions), erosion control plans, preliminary and final roadway plans, staging plans and final construction plans (including revisions through project final acceptance) and construction services, including review and approval of structural shop drawings. All required engineering studies are considered part of the scope of services.

All deliverables shall be in accordance with, but not limited to, the Plan Development Process (PDP), Electronic Data Guidelines (EDG), GDOT Design Policy Manual, GDOT Drainage Manual, GDOT Bridge and Structures Design Manual, Plan Presentation Guide, Georgia Environmental Policy Act (GEPA) and the GDOT Environmental Procedures Manual.

The Consultant shall provide:

- A. Scoping:
 - 1) Analyze project corridor for potential improvement types and locations that meet the defined capacityimprovement purpose and scope of the project.
 - 2) Develop traffic projections based on both historic project-specific data and potential changes resulting from development of the area.
 - Compile a matrix of potential improvements with associated construction, utility and right-of-way costs for each, and a draft prioritization (Cost/Benefit Analysis). Right of way cost estimates must be completed by a GDOT prequalified right-of-way consultant.
 - 4) Initial Concept Team Meeting Preparation and Attendance
 - 5) Prepare Concept Layouts and alignment alternatives for the selected improvements.
 - 6) Concept Design Data Book.
 - 7) Approved Project Execution Plan.
 - 8) Approved Public Involvement Plan Plan must be approved by State Communications Office.
 - 9) Compile and maintain contact list of pertinent stakeholders, including, but not limited to, individuals; businesses; regulatory agencies; local, State and Federal government officials; emergency service providers, and utilities.
 - 10) Prepare for and attend up to four (4) stakeholder or Citizen Advisory Committee (CAC) meetings.
 - 11) Prepare Draft Concept Report.
- B. Data Collection:
 - 1) Conduct AM & PM Peak Period turning movement counts.
 - 2) Conduct 24-hour classification counts on SR 3 and all on-system approaches to SR 3.
 - 3) Property Information and Owners from available sources.
 - 4) Conduct early coordination with local governments, regulatory agencies, and targeted stakeholders (e.g., churches, emergency response providers and hospitals, business owners, civic groups) as directed and maintain records of communication.
- C. Concept Report:
 - 1) Traffic Studies.
 - 2) Conceptual construction cost estimate(s) and conceptual right of way estimate(s) using GDOT prequalified right-of-way consultant.
 - 3) Prepare concept layouts and alignment alternatives.
 - 4) Initial Concept Meeting Preparation and Attendance.
 - 5) Approved Concept Report.
 - 6) Concept Design Data Book.
 - 7) Concept Meeting Preparation and Attendance.
 - 8) Prepare for and attend Public Involvement (Public Information Open House (PIOH)/Public Hearing Open House (PHOH)/Noise Wall Meetings) and associated coordination with GDOT. Two (2) PIOHs anticipated. Each PIOH/PHOH to be held at two different locations.

- D. Environmental:
 - 1) Perform Ecology Resources survey and prepare Ecology Survey Report.
 - 2) Agency coordination, including multiple meetings to ensure consistency of expectations, design, and clearance limits under each project.
 - 3) Perform Historic Resources Survey and Prepare Report.
 - 4) Perform Air Studies and Prepare Report.
 - 5) Perform Noise Studies and Prepare Report.
 - 6) Perform Archaeological Resources Survey and Prepare Report.
 - 7) Mitigation Credits Screening.
 - 8) Aquatic Survey and report.
 - 9) UST & Monitoring wells.
 - Prepare for and attend Public Involvement (Public Information Open House (PIOH)/Public Hearing Open House (PHOH)/Noise Wall Meetings) and associated coordination with GDOT. Two (2) PIOHs anticipated. Each PIOH/PHOH to be held at two (2) different locations.
 - 11) Terrestrial Protected Species Survey and Report.
 - 12) TPro and P6 updates.
 - 13) Prepare for and attend A3M Meeting.
- E. Preliminary Design:
 - 1) Complete Preliminary Roadway Plans:
 - a. Preliminary Signal Plans.
 - b. Preliminary Staging & Erosion Control Plans.
 - 2) Prepare for and attend A3M Meeting.
 - 3) Preliminary Bridge Layouts and hydraulic studies.
 - 4) Geotechnical/Soil Surveys.
 - 5) Prepare for and attend Constructability Review Meeting.
 - 6) AASHTOWare Cost Estimation with annual updates.
 - 7) Quality Assurance/Quality Control (QA/QC) Reviews.
 - 8) Location and Design Report.
 - 9) Preliminary Field Plan Review (PFPR) participation, report, and responses (All plan sets, and other information requested by Engineering Services).
 - 10) Traffic Studies.
 - 11) Preliminary Construction Plans.
 - 12) Prepare Federal Emergency Management Agency (FEMA) Floodplain Studies, Draft and Final No-Rise Certifications.
 - 13) Pavement Evaluation.
 - 14) Pavement Type selection.
 - 15) Approved Pavement Design.
- F. Survey:
 - 1) Aerial Photogrammetry/Mapping using aerial photography and LIDAR data provide by GDOT's State Location Bureau (SLB).
 - 2) Complete Survey Control.
 - 3) Complete Survey Database.
 - 4) Right-of-Way Staking.
 - 5) Bridge Layout Staking.
 - 6) Property Information and Owners (with updates).
 - 7) Complete stream hydraulic surveys streams.
 - 8) Extend survey limits (if necessary).
 - 9) Survey package report.

- G. Right-of-Way Plans:
 - 1) Attend ROW/Utility Team Meeting.
 - 2) Prepare, Revise, and deliver final Right-of-Way plans.
 - 3) Coordinate field review of right-of-way plans and staking.
 - 4) Right-of-Way revisions during acquisitions.
 - 5) Coordination with the GDOT Right-of-Way Office during acquisitions.
 - 6) Location & Design Approval.
- H. Final Design:
 - 1) FFPR participation, report, and responses (All plan sets, and other information requested by Engineering Services).
 - 2) Soil Survey Report.
 - 3) Bridge Foundation Investigation Report
 - 4) Wall Foundation Investigation Report, if needed.
 - 5) Culvert Foundation Investigation Report, if needed.
 - 6) Erosion Control Plans.
 - 7) Quality Assurance/Quality Control Reviews.
 - 8) Corrected FFPR Plans.
 - 9) AASHTOWare Final cost estimate.
 - 10) Final Plans, Specifications, and Estimates (PS&E) Package.
 - 11) Amendments & Revisions.
 - 12) Final Design Data Book.
 - 13) Complete Final Roadway Plans:
 - a. Final Signing and Marking Plans.
 - b. Final Signal Plans.
 - c. Final Staging & Erosion Plans.
 - d. Final Bridge Plans.
 - e. Utility Plans.
 - f. Utility Relocation Plans.
 - 14) Update all Environmental Special Studies Reports:
 - a. History.
 - b. Ecology.
 - c. Archaeology.
 - d. Air.
 - e. Noise.
 - f. Freshwater Aquatic and other protected species surveys as needed.
 - 15) Approved Pavement Evaluation.
 - 16) Special Provisions.
- I. Construction:
 - 1) Use on Construction Revisions.
 - 2) Site Condition Revisions.
 - 3) Shop Drawings.
- J. Quality Assurance/Quality Control Reviews for all deliverables.

- K. Attendance in and meeting minutes of monthly meetings to discuss progress and/or issues (Additional meetings may be required to resolve major project issues).
- L. Prepare, reproduce, and distribute Preliminary Field Plan Review (PFPR) and Final Field Plan Review (FFPR) Package, address/respond to comments, and make plan changes. The Consultant shall provide written responses to all Field Plan Review Reports to the Department's project manager no later than 48 hours prior to the distribution deadline.
- M. Prepare, reproduce, and distribute preliminary and final plans and all supporting disciplines (signing and marking, erosion control, R/W, Utilities,) as well as all special provisions, all design files, and supporting documentation.
- 7. Related Key Team Leaders:
 - A. Roadway Design Lead
 - B. Bridge Design Lead
 - C. NEPA Lead
- 8. An expected schedule includes the following milestone dates:
 - A. Notice to Proceed Q3 FY 2022
 - B. Scoping Report Q4 FY 2024
 - C. Right of Way Authorization Q2 FY 2028
 - D. Construction Authorization Q2 FY 2030

Project/Contract

- 1. Project Number: N/A
- 2. PI Number: 0017729
- 3. County: Dawson
- 4. Description: SR 53 @ Thompson Creek
- 5. Required Area Classes:

Prime Consultants are defined as the firm submitting the Statement of Qualifications and the firm with whom GDOT will contract. The Team is defined as the Prime Consultant and their subconsultants, who are considered team members. The Prime Consultant must be prequalified in the Area Classes identified below in Section 5.A. The Prime Consultant or subconsultant team members must be prequalified in the Area Classes identified below in Section 5.B. Respondents should submit a summary form (example provided in **Exhibit IV**) which details the required area classes for the Prime Consultant and all subconsultants or joint venture of consultants on the team listed in the Statement of Qualifications. The area classes listed on the summary form must meet all required area classes or the team will be disqualified. The Prequalification Expiration Date must be current by the deadline stated for this RFQ.

A. The **Prime Consultant** <u>MUST</u> be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|--------|----------------------|
| 3.01 | Rural Roadway Design |

B. The **Team** (either the Prime Consultant and/or one or more of their subconsultant team members) **<u>MUST</u>** be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|---------|--|
| 1.06(a) | NEPA Documentation |
| 1.06(b) | History |
| 1.06(c) | Air Studies |
| 1.06(d) | Noise Studies |
| 1.06(e) | Ecology |
| 1.06(f) | Archaeology |
| 1.06(g) | Freshwater Aquatic Surveys |
| 1.07 | Attitude, Opinion, and Community Value Studies (Public Involvement) |
| 1.10 | Traffic Projections |
| 3.12 | Hydraulic and Hydrological Studies (Roadway) |
| 4.01(a) | Minor Bridge Design |
| OR | |
| 4.01(b) | Minor Bridge Design - CONDITIONAL |
| 4.04 | Hydraulic and Hydrological Studies (Bridges) |
| 5.01 | Land Surveying |
| 5.02 | Engineering Surveying |
| 6.01(a) | Soil Survey Studies |
| 6.01(b) | Geological and Geophysical Studies |
| 6.02 | Bridge Foundation Studies |
| 6.05 | Hazardous Waste Site Assessment Studies |
| 9.01 | Erosion, Sedimentation, and Pollution Control Plan (ESPCP) Preparation |

6. Scope:

The Consultant shall provide concept development, field surveys and database enhancements, development of the environmental document including all required special studies, preliminary construction plans, roadway and bridge hydraulic and hydrological studies, preliminary bridge plans, signing and marking plans, final right-of-way plans (including revisions), erosion control plans, staging plans, final bridge plans and final construction plans (including revisions through project final acceptance). All required engineering studies are considered part of the Scope of Services. All deliverables shall be in accordance with the Plan Development Process, Electronic Data Guidelines, Plan Presentation Guide, NEPA and the GDOT Environmental Procedures Manual.

RFQ-484-051121

The Consultant shall provide:

- A. Complete Field Surveys:
 - 1) Provide Survey Control Package.
 - 2) Provide OpenRoads Survey Database.
 - 3) Staking for Bridge Site Inspection.
 - 4) Staking for Right-of-Way (ROW) Acquisition.
- B. Concept Report:
 - 1) Traffic Studies.
 - 2) Cost Estimates.
 - 3) Initial Concept Team Meeting Preparation and Attendance.
 - 4) Practical Alternatives Review (PAR) Activities, if needed.
 - 5) Concept Team Meeting Preparation and Attendance.
 - 6) Approved Concept Report.
 - 7) Concept Design Data Book.
 - 8) Public Involvement Plan (for GDOT's Approval).
 - 9) Cost Estimate with Annual Updates, including Right-of-Way.
- C. Environmental Document:
 - 1) Necessary Environmental Special Studies, Survey Reports and Assessments of Effects (e.g., Air, Noise, History, Ecology, and Archaeology).
 - 2) NEPA Documents:
 - a. Categorical Exclusion.
 - b. EA/FONSI.
 - c. NEPA and/or Special Studies Re-evaluation.
 - d. Section 4(f) Coordination.
 - 3) Preparation of a Section 404 Permit Application.
 - 4) Preparation of a Buffer Variance Application.
 - 5) Conduct Section 408 Coordination, as needed.
 - 6) Conduct Public Involvement.
 - 7) Prepare for and Attend the Preliminary Field Plan Review (PFPR) and Final Field Plan Review (FFPR).
 - 8) Prepare Mitigation Credit Application, if needed.
- D. Preliminary Design:
 - 1) Complete Preliminary Roadway Plans:
 - a. Preliminary Bridge Plans.
 - b. Preliminary Signing and Marking Plans.
 - c. Preliminary Erosion, Sedimentation and Pollution Control Plan (ESPCP).
 - d. Preliminary Utility Plans.
 - e. Preliminary Staging Plans.
 - f. Preliminary Drainage Design, including Municipal Separate Storm Sewer System (MS4),, if applicable.
 - 2) Bridge Hydraulic Study.
 - 3) Bridge Foundation Investigation (BFI) Report.
 - 4) Pavement Evaluation/UST/Soil Survey.
 - 5) Avoidance & Minimization Measures Meeting (A3M) Participation.
 - 6) Constructability Meeting Participation.
 - 7) Cost Estimate with Annual Updates.
 - 8) Location and Design Report.
 - 9) PFPR Participation, Report, and Responses (All plan sets and other information requested by Engineering Services).

RFQ-484-051121

- E. Right-of-Way (ROW) Plans:
 - 1) Prepare ROW Plans and Coordinate ROW Staking.
 - 2) ROW Revisions during Acquisition, as needed.
- F. Utilities:
 - 1) 1st and 2nd Utility Submittals, including Railroad (RR).
 - 2) Utility Plans and Utility Relocation Plans, as required.
- G. Final Design:
 - 1) Complete Final Roadway Plans:
 - a. Final Bridge Plans (LRFD).
 - b. Final Signing and Marking Plans.
 - c. Final ESPCP.
 - d. Final Utility Plans.
 - e. Final Staging Plans.
 - f. Final Drainage Design including Municipal Separate Storm Sewer System (MS4), if applicable.
 - g. Constructability Review Meeting Participation.
 - 2) FFPR Participation, Report, and Responses (All plans sets and other information requested by Engineering Services).
 - 3) Corrected FFPR Plans.
 - 4) Annual Cost Estimate Updates and Final Cost Estimate.
 - 5) Final PS&E Package.
 - 6) Amendments and Revisions.
- H. Construction:
 - 1) Use on Construction Revisions.
 - 2) Review Shop Drawings.
- I. Quality Control/Quality Assurance Reviews for All Deliverables.
- J. Attendance in, and Meeting Minutes of, Monthly Meetings to Discuss Progress and/or Issues (Additional meetings may be required to resolve major project issues).
- 7. Related Key Team Leaders:
 - A. Roadway Design Lead
 - B. Bridge Design Lead
 - C. NEPA Lead
- 8. The Following Milestone Dates are Proposed:
 - A. Preliminary Engineering (PE) Notice to Proceed Q2 FY 23
 - B. Limited Concept report submittal Q2 FY 24
 - C. PFPR Q3 FY 25
 - D. FFPR Q3 FY 26
 - E. Let Contract Q1 FY 27

Project/Contract

- 1. Project Number: N/A
- 2. PI Number: 0017732
- 3. County: Habersham
- 4. Description: SR 17/SR 115 @ Soquee River
- 5. Required Area Classes:

Prime Consultants are defined as the firm submitting the Statement of Qualifications and the firm with whom GDOT will contract. The Team is defined as the Prime Consultant and their subconsultants, who are considered team members. The Prime Consultant must be prequalified in the Area Classes identified below in Section 5.A. The Prime Consultant or subconsultant team members must be prequalified in the Area Classes identified below in Section 5.B. Respondents should submit a summary form (example provided in **Exhibit IV**) which details the required area classes for the Prime Consultant and all subconsultants or joint venture of consultants on the team listed in the Statement of Qualifications. The area classes listed on the summary form must meet all required area classes or the team will be disqualified. The Prequalification Expiration Date must be current by the deadline stated for this RFQ.

A. The **Prime Consultant <u>MUST</u>** be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|--------|----------------------|
| 3.01 | Rural Roadway Design |

B. The **Team** (either the Prime Consultant and/or one or more of their subconsultant team members) <u>MUST</u> be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|---------|--|
| 1.06(a) | NEPA Documentation |
| 1.06(b) | History |
| 1.06(c) | Air Studies |
| 1.06(d) | Noise Studies |
| 1.06(e) | Ecology |
| 1.06(f) | Archaeology |
| 1.06(g) | Freshwater Aquatic Surveys |
| 1.07 | Attitude, Opinion, and Community Value Studies (Public Involvement) |

| 5.02 | Engineering Surveying |
| 6.01(a) | Soil Survey Studies |
| 6.01(b) | Geological and Geophysical Studies |
| 6.02 | Bridge Foundation Studies |
| 6.05 | Hazardous Waste Site Assessment Studies |
| 9.01 | Erosion, Sedimentation, and Pollution Control Plan (ESPCP) Preparation |

6. Scope:

The Consultant shall provide concept development, field surveys and database enhancements, development of the environmental document including all required special studies, preliminary construction plans, roadway and bridge hydraulic and hydrological studies, preliminary bridge plans, signing and marking plans, final right-of-way plans (including revisions), erosion control plans, staging plans, lighting plans, final bridge plans and final construction plans (including revisions through project final acceptance). All required engineering studies are considered part of the Scope of Services. All deliverables shall be in accordance with the Plan Development Process, Electronic Data Guidelines, Plan Presentation Guide, Bridge and Structures Design Manual, NEPA and the GDOT Environmental Procedures Manual.

The Consultant shall provide:

- A. Complete Field Surveys:
 - 1) Provide Survey Control Package.
 - 2) Provide OpenRoads Survey Database.
 - 3) Staking for Bridge Site Inspection.
 - 4) Staking for Right-of-Way (ROW) Acquisition.
- B. Concept Report:
 - 1) Traffic Studies.
 - 2) Cost Estimates.
 - 3) Initial Concept Team Meeting Preparation and Attendance.
 - 4) Practical Alternatives Review (PAR) Activities, if needed.
 - 5) Concept Team Meeting Preparation and Attendance.
 - 6) Approved Concept Report.
 - 7) Concept Design Data Book.
 - 8) Public Involvement Plan (for GDOT's Approval).
 - 9) Cost Estimate with Annual Updates, including Right-of-Way.
- C. Environmental Document:
 - 1) Necessary Environmental Special Studies, Survey Reports and Assessments of Effects (e.g., Air, Noise, History, Ecology, and Archaeology).
 - 2) NEPA Documents:
 - a. Categorical Exclusion.
 - b. EA/FONSI.
 - c. NEPA and/or Special Studies Re-evaluation.
 - d. Section 4(f) Coordination.
 - 3) Preparation of a Section 404 Permit Application.
 - 4) Preparation of a Buffer Variance Application.
 - 5) Conduct Section 408 Coordination, as needed.
 - 6) Conduct Public Involvement.
 - 7) Prepare for and Attend the Preliminary Field Plan Review (PFPR) and Final Field Plan Review (FFPR).
 - 8) Prepare Mitigation Credit Application, if needed.
- D. Preliminary Design:
 - 1) Complete Preliminary Roadway Plans:
 - a. Preliminary Bridge Plans.
 - b. Preliminary Signing and Marking Plans.
 - c. Preliminary Erosion, Sedimentation and Pollution Control Plan (ESPCP).
 - d. Preliminary Utility Plans.
 - e. Preliminary Staging Plans.
 - f. Preliminary Drainage Design, including Municipal Separate Storm Sewer System (MS4), if applicable.
 - g. Preliminary Lighting Plans.
 - 2) Bridge Hydraulic Study and Approved Preliminary Layout.
 - 3) Bridge Foundation Investigation (BFI) Report.
 - 4) Pavement Evaluation/UST/Soil Survey.
 - 5) Avoidance & Minimization Measures Meeting (A3M) Participation.
 - 6) Constructability Meeting Participation.
 - 7) Cost Estimate with Annual Updates.
 - 8) Location and Design Report.
 - 9) PFPR Participation, Report, and Responses (All plans sets and other information requested by Engineering Services).

- E. Right-of-Way (ROW) Plans:
 - 1) Prepare ROW Plans and Coordinate ROW Staking.
 - 2) ROW Revisions During Acquisition, as needed.
- F. Utilities:
 - 1) 1st and 2nd Utility Submittals, including Railroad (RR).
 - 2) Utility Plans and Utility Relocation Plans as Required.
- G. Final Design:
 - 1) Complete Final Roadway Plans, including, but not limited to:
 - a. Final Bridge Plans (LRFD).
 - b. Final Signing and Marking Plans.
 - c. Final ESPCP.
 - d. Final Utility Plans.
 - e. Final Staging Plans.
 - f. Final Drainage Design including MS4, if applicable.
 - g. Constructability Review Meeting Participation.
 - h. Final Lighting Plans.
 - 2) FFPR Participation, Report, and Responses (All plans sets and other information requested by Engineering Services).
 - 3) Corrected FFPR Plans.
 - 4) Annual Cost Estimate Updates and Final Cost Estimate.
 - 5) Final PS&E Package.
 - 6) Amendments and Revisions.
- H. Construction:
 - 1) Use on Construction Revisions.
 - 2) Review Shop Drawings.

| 4.01(a) | Minor Bridge Design |
| OR | |
| 4.01(b) | Minor Bridge Design - CONDITIONAL |
| 4.04 | Hydraulic and Hydrological Studies (Bridges) |
| 5.01 | Land Surveying |
| 5.02 | Engineering Surveying |
| 6.01(a) | Soil Survey Studies |
| 6.01(b) | Geological and Geophysical Studies |
| 6.02 | Bridge Foundation Studies |
| 6.05 | Hazardous Waste Site Assessment Studies |
| 9.01 | Erosion, Sedimentation, and Pollution Control Plan (ESPCP) Preparation |

6. Scope:

The Consultant shall provide concept development, field surveys and database enhancements, development of the environmental document including all required special studies, preliminary construction plans, roadway and bridge hydraulic and hydrological studies, preliminary bridge plans, signing and marking plans, final right-of-way plans (including revisions), erosion control plans, staging plans, final bridge plans and final construction plans (including revisions through project final acceptance). All required engineering studies are considered part of the scope of services. All deliverables shall be in accordance with the Plan Development Process, Electronic Data Guidelines, Plan Presentation Guide, Bridge and Structures Design Manual, NEPA and the GDOT Environmental Procedures Manual.

The Consultant shall provide:

- A. Complete Field Surveys:
 - 1) Provide Survey Control Package.
 - 2) Provide OpenRoads Survey Database.
 - 3) Staking for Bridge Site Inspection.
 - 4) Staking for ROW Acquisition.
- B. Concept Report:
 - 1) Traffic Studies.
 - 2) Cost Estimates.
 - 3) Initial Concept Team Meeting Preparation and Attendance.
 - 4) Practical Alternatives Review (PAR) Activities, if needed.
 - 5) Concept Team Meeting Preparation and Attendance.
 - 6) Approved Concept Report.
 - 7) Concept Design Data Book.
 - 8) Public Involvement Plan (for GDOT's Approval).
 - 9) Cost Estimate with Annual Updates, including Right-of-Way.
- C. Environmental Document:
 - 1) Necessary Environmental Special Studies, Survey Reports and Assessments of Effects (e.g., Air, Noise, History, Ecology, and Archaeology).
 - 2) NEPA Documents:
 - a. Categorical Exclusion.
 - b. EA/FONSI.
 - c. NEPA and/or Special Studies Re-evaluation.
 - d. Section 4(f) Coordination.
 - 3) Preparation of a Section 404 Permit Application.
 - 4) Preparation of a Buffer Variance Application.
 - 5) Conduct Section 408 Coordination, as needed.
 - 6) Conduct Public Involvement.
 - 7) Prepare for and Attend the Preliminary Field Plan Review (PFPR) and Final Field Plan Review (FFPR).
 - 8) Prepare Mitigation Credit Application, if needed.
- D. Preliminary Design:
 - 1) Complete Preliminary Roadway Plans:
 - a. Preliminary Bridge Plans.
 - b. Preliminary Signing and Marking Plans.
 - c. Preliminary Erosion, Sedimentation and Pollution Control Plan (ESPCP).
 - d. Preliminary Utility Plans.
 - e. Preliminary Staging Plans.
 - f. Preliminary Drainage Design including Municipal Separate Storm Sewer System (MS4), if applicable.
 - 2) Bridge Hydraulic Study and Approved Preliminary Layout.
 - 3) Bridge Foundation Investigation (BFI) Report.
 - 4) Pavement Evaluation/UST/Soil Survey.
 - 5) Avoidance & Minimization Measures Meeting (A3M) Participation.
 - 6) Constructability Review Meeting Participation.
 - 7) Cost Estimate with Annual Updates.
 - 8) Location and Design Report.
 - 9) PFPR Participation, Report, and Responses (All plans sets and other information requested by Engineering Services).

- E. Right-of-Way (ROW) Plans:
 - 1) Prepare ROW Plans and Coordinate ROW Staking.
 - 2) ROW Revisions During Acquisition, as needed.
- F. Utilities:
 - 1) 1st and 2nd Utility Submittals.
 - 2) Utility Plans and Utility Relocation Plans, as required.
- G. Final Design:
 - 1) Complete Final Roadway Plans:
 - a. Final Bridge Plans (LRFD).
 - b. Final Signing and Marking Plans.
 - c. Final ESPCP.
 - d. Final Utility Plans.
 - e. Final Staging Plans.
 - f. Final Drainage Design, including MS4, if applicable.
 - g. Constructability Review Meeting Participation.
 - 2) FFPR Participation, Report, and Responses (All plans sets and other information requested by Engineering Services).
 - 3) Corrected FFPR Plans.
 - 4) Annual Cost Estimate Updates and Final Cost Estimate.
 - 5) Final PS&E Package.
 - 6) Amendments and Revisions.
- H. Construction:
 - 1) Use on Construction Revisions.
 - 2) Review Shop Drawings.
- I. Quality Control/Quality Assurance Reviews for All Deliverables.
- J. Attendance in, and Meeting Minutes of, Monthly Meetings to Discuss Progress and/or Issues (Additional meetings may be required to resolve major project issues).
- 7. Related Key Team Leaders:
 - A. Roadway Design Lead
 - B. Bridge Design Lead
 - C. NEPA Lead
- 8. The Following Milestone Dates are Proposed:
 - A. Preliminary Engineering (PE) Notice to Proceed Q2 FY 23
 - B. Limited Concept report submittal Q2 FY 24
 - C. PFPR Q3 FY 25
 - D. FFPR Q3 FY 26
 - E. Let Contract Q1 FY 27

Project/Contract

1. Project Number: N/A

- 2. PI Number: 0017735
- 3. County: Hall
- 4. Description: SR 283 @ Flat Creek
- 5. Required Area Classes:

Prime Consultants are defined as the firm submitting the Statement of Qualifications and the firm with whom GDOT will contract. The Team is defined as the Prime Consultant and their subconsultants, who are considered team members. The Prime Consultant must be prequalified in the Area Classes identified below in Section 5.A. The Prime Consultant or subconsultant team members must be prequalified in the Area Classes identified below in Section 5.B. Respondents should submit a summary form (example provided in **Exhibit IV**) which details the required area classes for the Prime Consultant and all subconsultants or joint venture of consultants on the team listed in the Statement of Qualifications. The area classes listed on the summary form must meet all required area classes or the team will be disqualified. The Prequalification Expiration Date must be current by the deadline stated for this RFQ.

A. The **Prime Consultant** <u>MUST</u> be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|--------|----------------------|
| 3.01 | Rural Roadway Design |

B. The **Team** (either the Prime Consultant and/or one or more of their subconsultant team members) **<u>MUST</u>** be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|---------|--|
| 1.06(a) | NEPA Documentation |
| 1.06(b) | History |
| 1.06(c) | Air Studies |
| 1.06(d) | Noise Studies |
| 1.06(e) | Ecology |
| 1.06(f) | Archaeology |
| 1.06(g) | Freshwater Aquatic Surveys |
| 1.07 | Attitude, Opinion, and Community Value Studies (Public Involvement) |
| 1.10 | Traffic Projections |
| 3.12 | Hydraulic and Hydrological Studies (Roadway) |
| 4.01(a) | Minor Bridge Design |
| OR | |
| 4.01(b) | Minor Bridge Design - CONDITIONAL |
| 4.04 | Hydraulic and Hydrological Studies (Bridges) |
| 5.01 | Land Surveying |
| 5.02 | Engineering Surveying |
| 6.01(a) | Soil Survey Studies |
| 6.01(b) | Geological and Geophysical Studies |
| 6.02 | Bridge Foundation Studies |
| 6.05 | Hazardous Waste Site Assessment Studies |
| 9.01 | Erosion, Sedimentation, and Pollution Control Plan (ESPCP) Preparation |

6. Scope:

The Consultant shall provide concept development, field surveys and database enhancements, development of the environmental document including all required special studies, preliminary construction plans, roadway and bridge hydraulic and hydrological studies, preliminary bridge plans, signing and marking plans, final right-of-way plans (including revisions), erosion control plans, staging plans, final bridge plans and final construction plans (including revisions through project final acceptance). All required engineering studies are considered part of the scope of services. All deliverables shall be in accordance with the Plan Development Process, Electronic Data Guidelines, Plan Presentation Guide, Bridge and Structures Design Manual, NEPA and the GDOT Environmental Procedures Manual.

- A. Complete Field Surveys:
 - 1) Provide Survey Control Package.
 - 2) Provide OpenRoads Survey Database.
 - 3) Staking for Bridge Site Inspection.
 - 4) Staking for Right-of-Way (ROW) Acquisition.
- B. Concept Report:
 - 1) Traffic Studies.
 - 2) Cost Estimates.
 - 3) Initial Concept Team Meeting Preparation and Attendance.
 - 4) Practical Alternatives Review (PAR) Activities, if needed.
 - 5) Concept Team Meeting Preparation and Attendance.
 - 6) Approved Concept Report.
 - 7) Concept Design Data Book.
 - 8) Public Involvement Plan (for GDOT's Approval).
 - 9) Cost Estimate with Annual Updates, including Right-of-Way.
- C. Environmental Document:
 - 1) Necessary Environmental Special Studies, Survey Reports and Assessments of Effects (e.g., Air, Noise, History, Ecology, and Archaeology).
 - 2) NEPA Documents:
 - a. Categorical Exclusion.
 - b. EA/FONSI.

- C. Environmental Document:
 - 1) Necessary Environmental Special Studies, Survey Reports and Assessments of Effects (e.g., Air, Noise, History, Ecology, and Archaeology).
 - 2) NEPA Documents:
 - a. Categorical Exclusion.
 - b. EA/FONSI.
 - c. NEPA and/or Special Studies Re-evaluation.
 - d. Section 4(f) Coordination.
 - 3) Preparation of a Section 404 Permit Application.
 - 4) Preparation of a Buffer Variance Application.
 - 5) Conduct Section 408 Coordination, as needed.
 - 6) Conduct Public Involvement.
 - 7) Prepare for and Attend the Preliminary Field Plan Review (PFPR) and Final Field Plan Review (FFPR).
 - 8) Prepare Mitigation Credit Application, if needed.
- D. Preliminary Design:
 - 1) Complete Preliminary Roadway Plans:
 - a. Preliminary Bridge Plans.
 - b. Preliminary Signing and Marking Plans.
 - c. Preliminary Erosion, Sedimentation and Pollution Control Plan (ESPCP).
 - d. Preliminary Utility Plans.
 - e. Preliminary Staging Plans.
 - f. Preliminary Drainage Design including Municipal Separate Storm Sewer System (MS4), if applicable.
 - 2) Bridge Hydraulic Study and Approved Preliminary Layout.
 - 3) Bridge Foundation Investigation (BFI) Report.
 - 4) Pavement Evaluation/UST/Soil Survey.
 - 5) Avoidance & Minimization Measures Meeting (A3M) Participation.
 - 6) Constructability Meeting Participation.
 - 7) Cost Estimate with Annual Updates.
 - 8) Location and Design Report.
 - 9) PFPR Participation, Report, and Responses (All plans sets and other information requested by Engineering Services).

- E. Right-of-Way (ROW) Plans:
 - 1) Prepare ROW Plans and Coordinate ROW Staking.
 - 2) ROW Revisions During Acquisition, as needed.
- F. Utilities:
 - 1) 1st and 2nd Utility Submittals.
 - 2) Utility Plans and Utility Relocation Plans, as required.
- G. Final Design:
 - 1) Complete Final Roadway Plans:
 - a. Final Bridge Plans (LRFD).
 - b. Final Signing and Marking Plans.
 - c. Final ESPCP.
 - d. Final Utility Plans.
 - e. Final Staging Plans.
 - f. Final Drainage Design, including MS4, if applicable.
 - g. Constructability Review Meeting Participation.
 - 2) FFPR Participation, Report, and Responses (All plan sets and other information requested by Engineering Services).
 - 3) Corrected FFPR Plans.
 - 4) Annual Cost Estimate Updates and Final Cost Estimate.
 - 5) Final PS&E Package.
 - 6) Amendments and Revisions.
- H. Construction:
 - 1) Use on Construction Revisions.
 - 2) Review Shop Drawings.
- I. Quality Control/Quality Assurance Reviews for All Deliverables.
- J. Attendance in, and Meeting Minutes of, Monthly Meetings to Discuss Progress and/or Issues (Additional meetings may be required to resolve major project issues).
- 7. Related Key Team Leaders:
 - A. Roadway Design Lead
 - B. Bridge Design Lead
 - C. NEPA Lead
- 8. The Following Milestone Dates are Proposed:
 - A. Preliminary Engineering (PE) Notice to Proceed Q2 FY 23
 - B. Limited Concept report submittal Q2 FY 24
 - C. PFPR Q3 FY 25
 - D. FFPR Q3 FY 26
 - E. Let Contract Q1 FY 27

Project/Contract

1. Project Numbers: NA

- 2. PI Number: 0017770
- 3. County: Henry
- 4. Description: SR 42 From CS 634/MLK Jr Blvd To CS 680/MarketPlace Blvd
- 5. Required Area Classes:

Prime Consultants are defined as the firm submitting the Statement of Qualifications and the firm with whom GDOT will contract. The Team is defined as the Prime Consultant and their subconsultants, who are considered team members. The Prime Consultant must be prequalified in the Area Classes identified below in Section 5.A. The Prime Consultant or subconsultant team members must be prequalified in the Area Classes identified below in Section 5.B. Respondents should submit a summary form (example provided in **Exhibit IV**) which details the required area classes for the Prime Consultant and all subconsultants or joint-venture of consultants on the team listed in the Statement of Qualifications. The area classes listed on the summary form must meet all required area classes or the team will be disqualified. The Prequalification Expiration Date must be current by the deadline stated for this RFQ.

A. The **Prime Consultant <u>MUST</u>** be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|--------|---|
| 3.02 | Two-Lane or Multi-Lane Urban Highway Design |

B. The **Team** (either the Prime Consultant and/or one or more of their subconsultant team members) **<u>MUST</u>** be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|---------|---|
| 1.01 | Statewide Systems Planning |
| 1.02 | Urban Area and Regional Transportation Planning |
| 1.02 | Alternate System and Corridor Location Planning |
| 1.06(a) | NEPA Documentation |
| 1.06(b) | History |
| 1.06(c) | Air Studies |
| 1.06(d) | Noise Studies |
| 1.06(e) | Ecology |
| 1.06(f) | Archaeology |
| 1.06(g) | Freshwater Aquatic Surveys |
| 1.07 | Attitude, Opinion, and Community Value Studies (Public Involvement) |
| 1.09 | Location Studies |
| 1.10 | Traffic Projections |
| 3.06 | Traffic Operations Studies |
| 3.07 | Traffic Operations Design |
| 3.09 | Traffic Control Systems Analysis, Design and Implementation |
| 3.10 | Utility Coordination |
| 3.12 | Hydraulic and Hydrological Studies (Roadway) |
| 3.13 | Facilities for Bicycles and Pedestrians |
| 3.15 | Highway Lighting |
| 4.01(a) | Minor Bridge Design |
| OR | |
| 4.01(b) | Minor Bridge Design - CONDITIONAL |
| 4.02 | Major Bridges Design |
| 4.04 | Hydraulic and Hydrological Studies (Bridges) |
| 5.01 | Land Surveying |
| 5.02 | Engineering Surveying |
| 5.03 | Geodetic Surveying |
| | Must meet one of the Area Classes below in the 5.04 series. |
| 5.04(a) | Aerial Photography/ Conventional Aircraft |
| 5.04(b) | Aerial Photography/Unmanned Aircraft System (Concept Grade) |
| 5.04(c) | Aerial Photography/Unmanned Aircraft System (Design Grade) |
| 5.05 | Aerial Photogrammetry |

| | Must meet one of the Area Classes below in the 5.06 series. |
|---------|--|
| | Topographic Remote Sensing (LIDAR) (Conventional Aircraft, Terrestrial Sensors and |
| 5.06(a) | Mobile Vehicle, Boat, or Rail Units) (Design Grade) |
| 5.06(b) | Topographic Remote Sensing (Unmanned Aircraft System LIDAR) (Design Grade) |
| 5.06(c) | Topographic Remote Sensing (Unmanned Aircraft System LIDAR) (Concept Grade) |
| 5.06(d) | Topographic Remote Sensing (Sonar) |
| 5.06(e) | Topographic Remote Sensing Thermal and Infrared Sensors |
| 5.08 | Subsurface Utility Engineering |
| 6.01(a) | Soil Survey Studies |
| 6.01(b) | Geological and Geophysical Studies |
| 6.03 | Hydraulic and Hydrological Studies (Soils and Foundation) |
| 6.05 | Hazard Waste Site Assessment Studies |
| 6.02 | Bridge Foundation Studies |
| 9.01 | Erosion, Sedimentation, and Pollution Control Plan (ESPCP) Preparation |

6. Scope:

The project proposes to widen SR 42 from CS 634/MLK Jr Blvd to CS 680/Marketplace Blvd in Henry County. The Consultant should consider a full range of alternatives to recommend the best concept to GDOT. At this time, the proposed project only has a scoping phase funded.

The proposed project will be delivered via a series of Task Orders throughout the Master Contract duration. Currently the project only has a scoping phase with no PE, ROW, or CST funds identified. Task Order 1 is anticipated to be some concept level activities with the anticipated deliverable to be a concept report. This initial task order will include the following:

- Examine the possibility of creating a one-way pair.
- Examine locations throughout the Norfolk Southern rail line within the project limits for multiple crossing points and rank them by type of crossing and feasibility.
- Provide existing and projected traffic and volume data on the affected road network.
- Provide railroad utilization data for the corridor within the study area including frequency, length, and average road travel delays due to blocked crossings.
- Provide safety information relative to the rail crossings within the study area.
- Identify restraints due to topography, utilities, flood, soils, other environmental factors, historic properties, and land use.
- Attend meetings with a Steering Committee and the City Council as needed and at least one meeting with the general public.
- Contact stakeholders.
- Present a minimum of two (2) up to five (5) alternatives with future impacts and cost estimates.

It is not likely that all standard concept activities will be completed due to limited scoping funds. All deliverables shall be in accordance with, but not limited to, the Plan Development Process (PDP), Electronic Data Guidelines (EDG), GDOT Design Policy Manual, GDOT Drainage Manual, GDOT Bridge and Structures Design Manual, Plan Presentation Guide, National / Georgia Env Policy Act (NEPA/GEPA) and the GDOT Environmental Procedures Manual.

- A. Concept Report:
 - 1) Traffic Studies.
 - 2) Conceptual right-of-way cost estimate utilizing vendor from GDOT's Right-of-Way services prequalified contractor list.
 - 3) Conceptual construction cost estimate.
 - 4) Prepare concept layouts and alignments alternatives.
 - 5) Initial Concept meeting Preparation and Attendance.
 - 6) Approved Concept Report.
 - 7) Concept Design Data Book.
 - 8) Concept Meeting Preparation and Attendance.

- B. Environment Document:
 - 1) GDOT will complete the Environmental Resource ID (Ecology, Archeology, & History) in advance of anticipated Consultant's Notice to Proceed. The Consultant will complete all other necessary Environmental Special Studies (Air, Aquatics, and Protected Species, as required) and Assessment of Effects (AOEs).
 - 2) Agency coordination including multiple meetings to ensure consistency of expectations, design, and clearance limits.
 - 3) Preparation of Section 404 Permit Application/Local Coordination Procedures.
 - 4) Section 7 Coordination.
 - 5) Protected Species Surveys including Aquatic & Terrestrial Surveys, as required.
 - 6) Preparation of a Vegetative Buffer application.
 - 7) Execution of Public Involvement Plan (PIP) including the Public Involvement (Public Information Open House (PIOH) and associated coordination with GDOT.
 - 8) Prepare for and attend the Preliminary Field Plan Review (PFPR), Constructability Review, and Final Field Plan Review (FFPR).
 - 9) Preparation of Environmental Commitments Table "Green Sheet" and Environmental Resource Impact Table (ERIT).
 - 10) Certification for Let.
 - 11) TPro and P6 Updates.
- C. Preliminary Design:
 - 1) Complete Preliminary Roadway Plans:
 - a. Preliminary Signing and Marking Plans.
 - b. Preliminary Signal Plans.
 - c. Preliminary Staging & Erosion Control Plans.
 - 2) Preliminary Bridge Layouts, as required.
 - 3) Cost Estimation System (CES) Preliminary cost estimate with annual updates.
 - 4) Quality Assurance/Quality Control (QA/QC) Reviews.
 - 5) Location and Design Report.
 - 6) Preliminary Field Plan Review (PFPR) participation, report, and responses (All plan sets and other information requested by Engineering Services).
 - 7) Traffic Studies.
 - 8) Preliminary Construction plans.
 - 9) Railroad Coordination.
 - 10) Pavement Evaluation/UST & Monitoring wells/Soil Survey.
 - 11) Pavement Type selection.
 - 12) Constructability Review meeting.
 - 13) Approved Pavement Design.
- D. Survey:
 - 1) Survey Control.
 - 2) Complete Survey Database.
 - 3) Property Information and Owners (with updates).
 - 4) Complete stream hydraulic surveys streams.
 - 5) Extend survey limits (if necessary).
 - 6) Survey package report.
- E. Right-of-Way (ROW) Plans:
 - 1) Prepare, Revise and deliver final Right-of-Way plans.
 - 2) Coordinated field review of right-of-way plans and staking.
 - 3) Right-of-Way revisions during acquisitions.
 - 4) Coordination with the GDOT Right-of-Way Office during acquisitions.
 - 5) Location & Design Approval.

- F. Final Design:
 - 1) FFPR participation, report, and responses (All plans sets and other information requested by Engineering Services).
 - 2) Erosion Control Plans.
 - 3) Quality Assurance/Quality Control Reviews.
 - 4) Corrected FFPR Plans.
 - 5) Cost Estimation System (CES) Final cost estimate.
 - 6) Final Plans, Specifications, and Estimates (PS&E) Package.
 - 7) Amendments & Revisions.

b. Final Signal Plans.

- 8) Final Design Data Book.
- 9) Complete Final Roadway Plans:
 - a. Final Signing and Marking Plans.
 - c. Final Staging & Erosion Plans.
- 10) Utility Plans.
- 11) Update all Environmental Special Studies Reports:
 - a. History.
 - b. Ecology.
 - c. Archaeology.
 - d. Air.
 - e. Noise.
 - f. Freshwater Aquatic and other protected species surveys, as needed.
- 12) Pavement Evaluation.
- 13) Special Provisions.
- 14) Railroad Coordination.
- 15) Final Bridge Plans.
- 16) Bridge Foundation Studies.
- G. Construction:
 - 1) Use on Construction Revisions.
 - 2) Site Condition Revisions.
 - 3) Shop Drawings.
- H. Quality Assurance/Quality Control Reviews for all deliverables.
- I. Attendance in and meeting minutes of monthly meetings to discuss progress and/or issues (Additional meetings may be required to resolve major project issues).
- J. Prepare, reproduce, and distribute Field Plan Review (FPR) Packages, address/respond to comments, and make changes. The Consultant shall provide written responses to all Field Plan Review Reports to the Department's project manager no later than 48 hours prior to the distribution deadline.
- K. Prepare, reproduce, and distribute preliminary and final plans and all supporting disciplines (signing and marking, erosion control, R/W, utilities,) as well as all special provisions, all design files, and supporting documentation.
- 7. Related Key Team Leaders:
 - A. Roadway Design Lead
 - B. Bridge Design Lead
 - C. NEPA Lead
- 8. An expected schedule includes the following key milestone date:

Notice to Proceed - Q2 FY 2022

Project/Contract

- 1. Project Numbers: N/A
- 2. PI Number: 0017845
- 3. County: Fulton
- 4. Description: SR 141 @ CS 119/State Bridge Road
- 5. Required Area Classes:

Prime Consultants are defined as the firm submitting the Statement of Qualifications and the firm with whom GDOT will contract. The Team is defined as the Prime Consultant and their subconsultants, who are considered team members. The Prime Consultant must be prequalified in the Area Classes identified below in Section 5.A. The Prime Consultant or subconsultant team members must be prequalified in the Area Classes identified below in Section 5.B. Respondents should submit a summary form (example provided in **Exhibit IV**) which details the required area classes for the Prime Consultant and all subconsultants or joint-venture of consultants on the team listed in the Statement of Qualifications. The area classes listed on the summary form must meet all required area classes or the team will be disqualified. The Prequalification Expiration Date must be current by the deadline stated for this RFQ.

A. The **Prime Consultant** <u>MUST</u> be prequalified by GDOT in the area classes listed below:

| Number | Area Class |
|--------|------------------------------|
| 3.02 | Urban Roadway Design |
| 3.03 | Complex Urban Roadway Design |

B. The **Team** (either the Prime Consultant and/or one or more of their subconsultant team members) **<u>MUST</u>** be prequalified by GDOT in the area classes listed below:

| - | |
|---------|---|
| Number | Area Class |
| 1.06(a) | NEPA Documentation |
| 1.06(b) | History |
| 1.06(c) | Air Studies |
| 1.06(d) | Noise Studies |
| 1.06(e) | Ecology |
| 1.06(f) | Archaeology |
| 1.06(g) | Freshwater Aquatic Surveys |
| 1.10 | Traffic Projections |
| 3.06 | Traffic Operations Studies |
| 3.07 | Traffic Operations Design |
| 3.09 | Traffic Control Systems Analysis, Design and Implementation |
| 3.12 | Hydraulic and Hydrological Studies (Roadway) |
| 3.13 | Bicycle and Pedestrian Facility Design |
| 3.15 | Highway Lighting and Outdoor Lighting |
| 5.08 | Overhead/Subsurface Utility Engineering (SUE) |
| 6.01(a) | Soil Survey Studies |
| 6.03 | Hydraulic and Hydrologic Studies (Soils & Foundation) |
| 6.05 | Hazardous Waste Site Assessment Studies |
| 9.01 | Erosion, Sedimentation and Pollution Control Plan (ESPCP) Preparation |

6. Scope:

This is an intersection improvement, safety project proposed at the intersection of SR 141 @ State Bridge Road.

The Consultant shall provide the development of the following scopes of services items. All deliverables shall be in accordance with, but not limited to the Plan Development Process (PDP), Electronic Data Guidelines (EDG), GDOT Design Policy Manual, GDOT Drainage Manual, Plan Presentation Guide (PPG), National Environmental Policy Act (NEPA) and the Environmental Procedures Manual (EPM).

- A. Environmental Document:
 - 1) Environmental Special Studies, Survey Reports, and Assessment of Effects for Air, Noise, Ecology, Aquatics, Archaeology, History, and NEPA.
 - 2) Agency coordination including multiple meetings to ensure consistency of expectations, design, and clearance limits.
 - 3) Preparation of Section 404 Permit Applications and Stream Buffer Variances.
 - 4) Section 7 Coordination.
 - 5) Protected Species Surveys including Aquatic and Terrestrial Surveys, as required.
 - 6) NEPA Documents:
 - a. Environmental Approval.
 - b. NEPA Re-evaluations, as required.
 - 7) Prepare for and attend the Preliminary Field Plan Review (PFPR), Constructability Review, and Final Field Plan Review (FFPR).
 - 8) Certification for Right-of-Way.
 - 9) Certification for Let.
 - 10) TPro and P6 Updates.
 - 11) Preparation of Environmental Commitments Table "Green Sheet" and Environmental Resource Impact Table (ERIT).
- B. Preliminary Design:
 - 1) Complete Preliminary Roadway Plans:
 - a. Preliminary Signing and Marking Plans.
 - b. Preliminary Signal Plans.
 - c. Preliminary Staging and Erosion Control Plans.
 - 2) Cost Estimation System (CES) Preliminary Cost estimate with annual updates.
 - 3) Quality Assurance/Quality Control Reviews.
 - 4) Location and Design Report.
 - 5) PFPR participation, report, plan production and distribution, and responses (All plan sets and other information requested by Engineering Services).
 - 6) Traffic Studies.
 - 7) Preliminary Construction Plans.
 - 8) Pavement Evaluation/UST & Monitoring Wells/Soil Survey.
 - 9) Pavement Type Selection.
 - 10) Constructability Review Meeting.
 - 11) Approved Pavement Design.
 - 12) SUE Plans (Quality Level-B).
- C. Right-of-Way (ROW) Plans:
 - 1) Prepare, revise and deliver final Right-of-Way plans.
 - 2) Coordinated field review of right-of-way plans and staking.
 - 3) Right-of-Way revisions during acquisition.
 - 4) Coordination with the GDOT Right-of-Way Office during acquisition.
 - 5) Location and Design Approval.
 - 6) Attend Property Owners Meeting.
- D. Final Design.
 - 1) FFPR participation, report, plan production and distribution, and responses (All plan sets and other information requested by Engineering Services).
 - 2) Erosion Control Plans.
 - 3) Quality Assurance/Quality Control Reviews.

- 4) Corrected FFPR Plans.
- 5) Cost Estimation System (CES) Final Cost Estimate.
- 6) Final Plans, Specifications, and Estimates (PS&E) Package.
- 7) Amendments and Revisions.
- 8) Final Design Databook.
- 9) Complete Final Roadway Plans:
 - a. Final Signing and Marking Plans.
 - b. Final Signal Plans.
 - c. Final Staging and Erosion Control Plans.
- 10) Utility Plans.
- 11) Update Environmental Special Studies and NEPA re-evaluation:
 - a. History.
 - b. Ecology.
 - c. Archaeology.
 - d. Air.
 - e. Noise.
 - f. Freshwater Aquatic and other protected species surveys, as needed.
- 12) Special Provisions.
- E. Construction:
 - 1) Use on Construction Revisions.
 - 2) Site Condition Revisions.
- F. Quality Assurance/Quality Control Reviews for all deliverables.
- G. Attendance in and meeting minutes of monthly meetings to discuss progress and/or issues (Additional meetings may be required to resolve major project issues).
- H. All special provisions, design files, supporting documentation, analyses, and studies.
- 7. Related Key Team Leaders:
 - A. Roadway Design Lead
 - B. NEPA Lead
- 8. An expected schedule includes the following milestone dates:
 - A. Notice to Proceed Q3 FY 2022
 - B. Right-of-Way Authorization Q4 FY 2023
 - C. Construction Authorization Q4 FY 2024

GEORGIA SECURITY AND IMMIGRATION COMPLIANCE ACT AFFIDAVIT

| Consultant's Name: | |
|--------------------------------|---|
| Address: | |
| Solicitation No./Contract No.: | RFQ-484-051121 |
| Solicitation/Contract Name: | Batch #1 - 2021 Engineering Design Services |

CONSULTANT AFFIDAVIT

By executing this affidavit, the undersigned Consultant verifies its compliance with O.C.G.A. § 13-10-91, stating affirmatively that the individual, entity or corporation which is engaged in the physical performance of services on behalf of the Georgia Department of Transportation has registered with, is authorized to use and uses the federal work authorization program commonly known as E-Verify, or any subsequent replacement program, in accordance with the applicable provisions and deadlines established in O.C.G.A. § 13-10-91.

Furthermore, the undersigned Consultant will continue to use the federal work authorization program throughout the contract period and the undersigned Consultant will contract for the physical performance of services in satisfaction of such contract only with sub-consultants who present an affidavit to the Consultant with the information required by O.C.G.A. § 13-10-91(b). Consultant hereby attests that its federal work authorization user identification number and date of authorization are as follows:

| Federal Work Authorization User Identification Number (EEV/E-Verify Company Identification Number) | Date of Authorization |
|--|--|
| Name of Consultant | |
| I hereby declare under penalty of perjury that the foregoing is true and correct | |
| Printed Name (of Authorized Officer or Agent of Consultant) | Title (of Authorized Officer or Agent of Consultant) |
| Signature (of Authorized Officer or Agent) | Date Signed |
| SUBSCRIBED AND SWORN BEFORE ME ON THIS THE | |
| DAY OF, 20 | |
| Notary Public | [NOTARY SEAL] |
| My Commission Expires: | Rev. 11/01/15 |

EXHIBIT IV Area Class Summary Example

Respondents should complete a table similar to the below and indicate by placing an "X" in the appropriate column indicating the firm which meets each required area class for each specific project with particular emphasis on the area classes which the Prime must hold as well as the sub-consultants. The below table is a full listing of all area classes. Since no single advertisement would require every area class, Respondents should delete all the area classes which are not applicable to the project they are pursuing and only include the ones applicable. Particular attention should be paid to the date that consultants certificate expires.

| Area Class # | Area Class Description | Prime Consultant | Sub- Consultant | Sub- Consultant | Sub- Consultant #3 | Sub- Consultant #4 | Sub- Consultant #5 | Sub- Consultant #6 |
|-----------------|---|---------------------|--------------------|--------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| | | Name | #1 Name | #2 Name | Name | Name | Name | Name |
| | DBE – Yes/No -> | | | | | | | |
| | Prequalification Expiration Date | | | | | | | |
| 1.01 | Statewide Systems Planning | | | | | | | |
| 1.02 | Urban Area and Regional Transportation Planning | | | | | | | |
| 1.03 | Aviation Systems Planning | | | | | | | |
| 1.04 | Mass and Rapid Transportation Planning | | | | | | | |
| 1.05 | Alternate Systems Planning | | | | | | | |
| 1.06(a) | NEPA Documentation | | | | | | | |
| 1.06(b) | History | | | | | | | |
| 1.06(c) | Air Studies | | | | | | | |
| 1.06(d) | Noise Studies | | | | | | | |
| 1.06(e) | Ecology | | | | | | | |
| 1.06(f) | Archaeology | | | | | | | |
| 1.06(g) | Freshwater Aquatic Surveys | | | | | | | |

Project Consideration Checklist – RFQ-484-051121 Batch #1 - 2021 Engineering Design Services

This form must be completed and included in the Statement of Qualification(s) in Section VI. A. Contract Consideration Checklist with **all** applicable boxes checked.

This form will NOT be counted in the maximum number of pages.

ALL

The submitted team meets the prequalification requirements for <u>All</u> projects and would like to be considered on <u>All</u> projects.

OR

The submitted team meets the prequalification requirements and would like to be considered on the following <u>checked</u> contracts.

| Contract # | PI # | Count(ies) | Project Description |
|------------|---------|-----------------|--|
| 1 | 0013064 | Meriwether/Pike | SR 109 FROM SR 41/MERIWETHER TO SR 18/PIKE |

ADDENDUM NO. 1

ISSUE DATE: 4/28/2021

This Addendum shall become and form a part of the RFQ for:

RFQ-484-051121 – Batch #1 – 2021 Engineering Design Services

NOTE: PLEASE REVIEW CAREFULLY! THERE MAYBE CHANGES TO THE INFORMATION TO BE PROVIDED. FAILURE TO ADHERE TO ANY CHANGES ADDRESSED IN THIS ADDENDUM MAY RESULT IN DISQUALIFICATION.

In the event of a conflict between previously released information and the information contained herein, the latter shall control.

NOTE: A signed acknowledgment of this addendum (this page) <u>MUST</u> be attached to your SUBMITTAL for Phase I.

Firm Name

Signature

_____ Date _____

Typed Name and Title

Georgia Department of Transportation (GDOT) Office of Transportation Services Procurement One Georgia Center 600 West Peachtree Street, NW 19th Floor Atlanta, Georgia 30308

This Addendum, including all questions and answers, shall become and form a part of the original RFQ package and shall be taken into account when preparing your proposal.

The purpose of this addendum is to provide the answers to the written questions received during the question and answer period of the RFQ Phase as follows:

| | Questions | Answers |
|----|---|---|
| 1. | Our current prequalification does not expire until August 9, 2021. We are currently prequalified in 5.06 Remote Sensing. Will this suffice for this area class for this RFQ submittal? | If a consultant is currently prequalified in 5.06, they are considered "grandfathered in" and are prequalified in area classes 5.06(a), 5.06(b), 5.06(c), 5.06(d) and 5.06(e). When it comes time for the consultant to renew their prequalification status, they will have to choose which new area classes to apply for (5.06(a), 5.06(b), 5.06(c), 5.06(d), 5.06(c), 5.06(d), 5.06(e) since 5.06 has been discontinued. Please note: if the consultant wishes to apply for 5.06(b) they will have to fly and pass the GDOT UAS test site. |
| 2. | Exhibit I-1, Section 6.A Part 4 states: "Right-of-way cost estimates must be completed by a GDOT prequalified right-of-way consultant." The prequalification area classes listed in Sections 5.A. and 5.B do not include right-of-way consultant area classes. What right-of-way consultant area class is required to perform this service? Is this area class a requirement of the Prime Consultant or the Team? If it is required, will the prime consultant be required to demonstrate this prequalification as required by submission instructions? | Right-of-Way (ROW) area classes are not required as part of project delivery. Firms just need to make sure when submitting the annual ROW cost estimate, it is performed by a consultant prequalified by GDOT to perform this task. The prequalified list can be found here: <u>http://www.dot.ga.gov/PartnerSmart/Documents/ROW/RW-ValuationAppraiser.pdf</u> ROW cost estimates will not be accepted if not performed by a firm or individual from this list. |

| 3. | Should survey area classes be included as part of Contract #12? | No. Survey will be completed by GDOT and is not required as part of this contract. |
|----|--|---|
| 4. | No Database phase is listed in the scope (Exhibit I-12). Please confirm if an approved database is being provided by the Department. | See Answer to Question 3. |
| 5. | In reference to Contract 12, PI # 0017845 / Fulton County, SR 141 at CS 119/State Bridge Road: Are we able to add a Key Team Member resume for Traffic Operations and Design? | No. A Key team lead resume for Traffic Operations and Design is not required for this Contract. |
| 6. | Contract 12 (Exhibit I-12) does not require a Traffic Key Team Lead. Are traffic studies being provided by the Department or through another contract? It seems the traffic studies/analysis would be a major role in this type of alternative intersection project. | See Answer to Question #5. Traffic studies will be completed by GDOT. |
| 7. | In reference to Contract 12, PI # 0017845 / Fulton County, SR 141 at CS 119/State Bridge Road: Will concept validation be a part of the scope since concept development is not included? | No, the approved concept will be provided by GDOT. |
| 8. | No Concept Development phase is listed in the scope (Exhibit I-12). Please confirm if an approved Concept Report being provided by the Department. | See Answer to Question #7. |

ADDENDUM NO. 2

ISSUE DATE: 5/24/2021

This Addendum shall become and form a part of the RFQ for:

RFQ-484-051121 – Batch #1 – 2021 Engineering Design Services

NOTE: PLEASE REVIEW CAREFULLY! THERE MAYBE CHANGES TO THE INFORMATION TO BE PROVIDED. FAILURE TO ADHERE TO ANY CHANGES ADDRESSED IN THIS ADDENDUM MAY RESULT IN DISQUALIFICATION.

In the event of a conflict between previously released information and the information contained herein, the latter shall control.

NOTE: THIS ADDENDUM IS FOR NOTIFICATION PURPOSES ONLY FOR:

Georgia Department of Transportation (GDOT) Office of Transportation Services Procurement One Georgia Center 600 West Peachtree Street, NW 19th Floor Atlanta, Georgia 30308

The purpose of this addendum is to provide an update to the RFQ to confirm the following:

RFQ Section X: GDOT Terms and Conditions, Item H. Right to Cancel or Change RFQ, 1st paragraph states:

GDOT reserves the right to cancel any and all Request for Qualifications where it is determined to be in the best interest of the Department to do so. GDOT reserves the right to increase, reduce, add or delete any item in this solicitation as deemed necessary.

Therefore, Exhibit I-11, Project/Contract 11, PI Number: 0017770, SR 42 FROM CS 634/MLK JR BLVD TO CS 680/MARKETPLACE BLVD, is being DELETED in its entirety.

GDOT GUIDE FOR SELECTION COMMITTEE MEMBERS

RFQ-484-051121 Batch #1 – 2021 Engineering Design Services Contract 9 – PI #0017737

This ENTIRE GUIDE must be reviewed carefully by all Selection Committee Members BEFORE the evaluation of submittals.

Coordination and Communication

Charnele Dobbins will coordinate the overall submittal evaluation process and serve as Facilitator of any Selection Committee Meetings through the completion of the evaluation. All Committee members will be provided copies of submittals and related information, and will be notified of any proposed (if applicable) meetings, conference calls, and deadlines. **IMPORTANT**- *All written communication* (e-mails, memos, scoresheets, handwritten notes in SOQs, Proposals, etc.) related to the evaluation can be subject to public record. Therefore, all such communication should be limited to objective and verifiable information.

Evaluation Process

The evaluation and scoring will be handled in two phases. Phase I will be the evaluation of the written Statements of Qualifications received from all respondents. Phase II will be the evaluation of the written responses from the Finalists. The scoring for the Finalists will be carried forward from Phase I and added to the scores from Phase II to determine the highest ranked Finalists and hence with whom negotiations will be initiated. The criteria to be utilized in the evaluation and scoring are as follows:

<u>Phase I</u>

- Project Manager, Key Team Leader(s) and Prime's Experience and Qualifications (20% or 200 Points)
- Project Manager, Key Team Leader(s) and Prime's Resources and Workload Capacity (30% or 300 Points)

<u>Phase II</u>

- Technical Approach (40% or 400 Points)
- Past Performance (10% or 100 Points)

Phase I Evaluation of Statements of Qualifications

Evaluation of Eligible Submittals

Submittals determined eligible must be read thoroughly with careful attention to the presence of required <u>submittal content</u>. The reader should keep the <u>evaluation criteria</u> in mind when assessing each submittal. As Reviewers read the responses, they will determine the rating for each criteria as follows:

- Poor = Does Not have minimum qualifications/availability
- Marginal = Meets Minimum qualifications/availability but one or more major considerations are not addressed or is lacking in some essential aspects
- Adequate = Meets minimum qualification/availability and is generally capable of performing work
- Good = More than meets minimum qualifications/availability and exceeds in some aspects
- Excellent = Fully meets qualifications/availability and exceeds in several or all areas

Directions for use of the Evaluation Preliminary Scoring Forms:

Scoring forms will be distributed to all Selection Committee members along with copies of submittals which were received and validated. Evaluators will have the option of using the hard copy forms or an electronic version of the form. However, to ensure that Open Records Request can be filled in compliance with the law, Evaluators who choose to use the electronic version of the form should only maintain one version of the form and must provide the electronic version of the form to Procurement. Each evaluator will use their numbered scoring form for scoring all submittals. Evaluators must ensure that the name of the Firm being evaluated is written in the appropriate box to identify the Firm to whom the ratings and comments belong. Using the criteria categories in <u>Evaluation of Eligible Submittals</u> above, each submittal will be given a <u>preliminary</u> <u>score</u> for each of the criteria. The Reviewer should provide comments for each section which support the rating. Reviewers should not seek to write down everything that the submittal contains. Rather, Reviewers should first determine the rating and then answer why they feel the rating is warranted.

The review, preliminary scoring, and comments MUST be completed prior to the Selection Committee Meeting and must be sent to the Procurement Facilitator by the deadline given in order to make efficient and effective usage of all Selection Committee Members time.

SPECIAL INSTRUCTIONS FOR EVALUATING AVAILABILITY

Through working with the consultant industry, they asked that when considering their availability, we consider more than merely the number of projects they have listed. With this in mind we have allowed space in their SOQ for the respondents to provide a narrative in their ability. This narrative will allow them to discuss how the organization of the team, including the PM and Key Team Leaders can deliver the project on schedule given their workload capacity. It also recognizes that some individuals may be able to meet the schedule while carrying heavier project workloads and allows them to discuss the advantages of their team and the abilities of their team members which will enable the project to meet the proposed schedule. If there is no schedule provided, they can discuss the advantages of the team and abilities of the value which will enable the project to move as expeditiously as possible. You MUST consider this narrative along with the workload table when rating the SOQs. You MUST NOT merely look at the workload table solely for making the rating decision.

Evaluation Meeting:

All completed Scoring Forms with the <u>preliminary scores</u> and <u>comments</u> for each criteria of each firm, must be brought to the Selection Committee Meeting planned for Friday, June 25, 2021. The completed forms must be turned in at the conclusion of the meeting.

Prior to the meeting, the Facilitator will use the scores and subsequent ranks to determine where the majority of the discussion should be focused. Generally, the majority of the discussion will center on the top submittals. The Selection Committee will discuss and determine a final committee rating for each criteria and will provide summary comments as to why the Committee feels the rating is warranted.

The final rankings will be used to determine the three to five Finalists who will proceed and have their scores carried forward to Phase II of the evaluation.

It is important to note, that all evaluation scoring, notes, and comments will be subject to open records and there is a very high likelihood they will be reviewed by a wide variety of individuals. For this reason, it is extremely important to adhere to all guidelines and suggestions contained in this Guide for Selection Committee Members.

Phase II

Evaluation of Technical Approach and Past Performance

- Finalists will be required to submit a written response which must detail the Technical approach (including design concepts and use of alternative methods).
- Past Performance Procurement will be checking references and will provide the results of the reference checks to the Selection Committee for review. The Selection Committee will also be allowed to share and review any other documented information made available for consideration regarding the Firm's performance on any project/contract, along with the reference checks to provide a group rating with comments.

With the increased lack of responses to the reference checks, Procurement is requesting that prior to attending the Phase II meeting that each of the selection committee members perform the following action to add to the past performance discussion.

- The Selection Committee should be prepared to share personal work experience while working with each shortlisted firm, provide project P.I. number and any performance issues, concerns and/or positive feedback about the Prime Consultant and its team that may hinder or improve their overall rating for past performance.
- Selection committee members that do not have any personal prior work experience with any of the shortlisted firms, must seek additional documented material through discussion with their Office Management, CMIS (Vendor evaluation), inter-office documentation (emails, written correspondence, cure letters, etc.) to help aid in the discussion during the Phase II meeting.

Submittals and Past Performance information must be read/considered thoroughly with careful attention to the presence of required <u>submittal content</u>. The reader should keep the <u>evaluation criteria</u> in mind when assessing each submittal. As Reviewers read the responses, they will make notes in the submittals and must be prepared to discuss their position in the Selection Committee Meeting for Phase II. **The review and notes MUST be completed prior to the Selection Committee Meeting**.

Evaluation Meeting:

All notes must be brought to the Selection Committee Meeting planned for Monday, September 13, 2021. The Selection Committee will discuss and determine a final committee rating for each criteria and will provide summary comments as to why the Committee feels the rating is warranted. The Committee will assign the following ratings:

- Poor = Does Not have minimum qualifications/availability
- Marginal = Meets Minimum qualifications/availability but one or more major considerations are not addressed or is lacking in some essential aspects
- Adequate = Meets minimum qualification/availability and is generally capable of performing work
- Good = More than meets minimum qualifications/availability and exceeds in some aspects
- Excellent = Fully meets qualifications/availability and exceeds in several or all areas

FINAL SCORING AND SELECTION

The scores from Phase I and Phase II will be added together, and a final overall ranking will be determined and provided for Selection Committee approval.

| A. Project Manager, Key Te | eam Leader(s) and Prime's Experience and Qualifications - 20% | Assigned Rating | Good |

PM is a registered engineer and project management professional with 34 years of exp. PM listed numerous bridge projects yet presented limited details on relevant management experience for those projects. Noted detailed PM exp with a major widening project that required various levels of coordination. Roadway KTL has 17 yrs of exp and presented exp as lead engineer for 2 off-system bridge replacement projects. Noted exp as a design engineer assisting with developent of plans for a GDOT widening project that has been constructed. Prime presented relevant projects that demonstrates its ability in providing effectives services for GDOT. Most projects have been completed and included involvment of PM and Key Team Members.

B. Project Manager, Key Team Leader(s) and Prime's Resources and Workload Capacity - 30% Assigned Rating

Prime has AJ Jubran listed as a resource on org chart under Geotechnical. AJ Jubran has passed and should not have been listed as a resource.

Poor

Adequate

Good

Firm Name:

Atlas Technical Consultants, LLC A. Project Manager, Key Team Leader(s) and Prime's Experience and Qualifications - 20%

PM presented exp with several interchange and widening projects that required bridges. Noted specific design tasks performed for eng related exp. PM management exp included projects that required coordination with Corp of Engineers to minimize impacts. Roadway KTL presented 3 GDOT projects of similar scope with details regarding project progression through plan development. Projects presented for prime's experience did not demonstrate their ability to deliver effective services for projects of similar complexity and scope.

B. Project Manager, Key Team Leader(s) and Prime's Resources and Workload Capacity - 30%

ssigned Rating

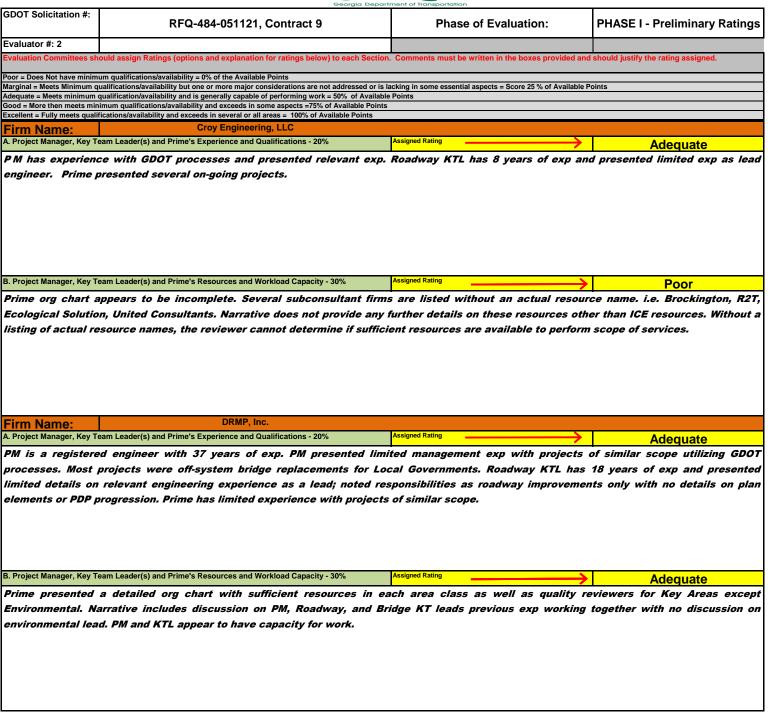

Assigned Rating

PRIME HAS ADEQUATE RESOURCES TO PERFORM SCOPE OF SERVICES. TWO OR MORE RESOURCES LISTED FOR EACH KEY TEAM MEMBER. PM AND KTL APPEAR TO HAVE CAPACITY FOR WORK.

|-----------|------------------------------------|---|------|
| Firm | Parsons Transportation Group, Inc. | | |
| Experienc | e and Qualifications | Assigned Rating | Good |

Experience and QualificationsAssigned RatingGoodParson's Project manager (PM) has 17 years of experience managing transportation engineering and planning projects. The PM has
worked on similar scoped projects, and is familiar with GDOT policies and procedures. Additionally, the PM has successfully
managed relevant project management obstacles on past projects, examples include overcoming a 9-month delay, which the PM
accelerated PFPR and ROW plans; submitted a limited scope concept 4 weeks after NTP; and used GIS surface data to prepare A3M
plans 3 months after NTP. The Roadway Key Team Lead (KTL) has 22 years of various roadway design experience, has worked on
bridge replacement projects over water, has been a lead on 4 recent GDOT bridge bundles, which involved the replacement of 15
bridges over waterways and railroads, and is familiar with GDOT policies and procedures. The Bridge KTL has 11 years of structural
design experience on transportation projects, completed relevant projects including bridges over water, and is familiar with GDOT
policies and procedures. The NEPA KTL has 24 years of providing management experience of environmental documentation, which
most are relevant to this project. Also, the NEPA KTL has previous public involvement experience which will serve as a plus. The
Prime has completed many projects for GDOT with similar scope as this project. All KTL's have extensive experience working
together, except for environmental, on similar projects with GDOT under the Prime.

Resources and Workload Capacity

Assigned Rating

Parson's PM has over 50% availability. Additionally, the KTL's all appear to have ample availability to work on this project. The organization chart shows redundancy in each of the disciplines with multiple PE's available, and listed deputy PM's having previous experience working in similar roles with the team leads. Parson's will add a Structural PE, who is dedicated to culverts and wall designs for this project. The QA/QC roles are clearly defined and detailed to outline different personnel in charge of the project disciplines for quality control.

|-----------|-------------------------------------|-----------------|--|
| Firm | NV5 Engineers and Consultants, Inc. | | |
| Experienc | e and Qualifications | Assigned Rating | Good |

NV5's PM has 31 years of experience in project management and roadway design, worked as a PM on similar scoped projects which includes 8 bridge replacements from 2 GDOT bridge bundles, and is familiar with GDOT policies and procedures. In addition, the PM will use a structured Project Management Plan (PMP) to establish project expectations, objectives, deliverables, and roles. The Roadway KTL has 13 years of experience in roadway and project management design, worked on similar scoped projects, was a previous GDOT group manager, and is very familiar with GDOT policies and procedures. The Bridge KTL has 31 years experience and has served as a project engineer on over 130 highway bridge and structure projects, served as a KTL on 2 previous GDOT bridge bundle projects, highlighted bridges over water, and is familiar with GDOT policies and procedures. The NEPA KTL has 30 years experience, and listed project examples that are similar in scope to this project. The Prime has worked on projects of similar scope and with involvement of all KTL's.

Resources and Workload Capacity

Assigned Rating

Good

Excellent

All of NV5's KTL's have ample availability to work on this project. The organization chart shows redundancy in each of the disciplines with multiple PE's available. The QA/QC process is clearly defined with different personnel in charge of the various disciplines within quality control.

NOTICE TO SELECTED FINALISTS

To: Atlas Technical Consultants, LLC; Infrastructure Consulting & Engineering, PLLC; Kimley-Horn and Associates, Inc.; NV5 Engineers and Consultants, Inc.; and Parsons Transportation Group, Inc.

Please send an e-mail confirming receipt of this notice to Charnele Dobbins (cdobbins@dot.ga.gov).

Re: RFQ-484-051121 – Batch #1 – 2021 Engineering Design Services, Contract 9 - PI #0017737, Towns County

On behalf of the Selection Committee for the Request for Qualifications (RFQ) referenced above, we congratulate you and your firm on being selected as a finalist for further consideration. This notice shall serve as an official request for additional required information and action from finalists. Please refer to the original solicitation (RFQ-484-051121), pages 8&9, VII. Instructions for Preparing Technical Approach and Past Performance Response – Phase II Response, A&B and pages 10&11, IX. Instructions for Submittal for Phase II – Technical Approach and Past Performance Response, A-D for instructions to submit your package. As a finalist, your firm is required to comply with the written instructions and remaining schedule below:

A. Technical Approach - 40%

This information will be limited to a maximum of three (3) pages.

Furnish information that may serve to differentiate your firm from other firms and evidence of the firm's fit to the project and/or needs of GDOT, including:

- 1. Provide any unique technical approaches your firm offers relative to addressing anticipated design concepts, use of any alternative methods for delivery (if applicable), and/or management of the project.
- 2. Identify any unique challenges of the project and how your firm intends to mitigate these challenges, including quality control, quality assurance procedures.
- 3. Provide any specific qualifications, skills, knowledge of the project and project area which may uniquely benefit the firm and project, and your ability and willingness to meet time requirements.

B. Past Performance - 10%

No additional information should be submitted to fulfill this requirement. Information from the relevant projects listed as well as information on file with the Department will be used to fulfill this requirement.

| d. GDOT completes evaluation and issues notification and other information to finalist firms. | 08/17/2021 | |
|---|------------|---------|
| e. Deadline for submission of written questions from finalists | 08/24/2021 | 2:00 PM |
| f. Phase II Response of Finalist firms due | 09/01/2021 | 2:00 PM |

Remaining Schedule

Notice to Selected Finalists RFQ-484-051121 – Batch #1 – 2021 Engineering Design Services, Contract 9 - PI #0017737, Towns County Page 2 of 2

C. Finalist Selection

Final selection will be determined by carrying the scores from **Phase I** forward for each Finalist and by evaluating the **Technical Approach** and **Past Performance** criteria for **Phase II**. For each evaluator, the points assigned to each criterion will be totaled and a rank will be determined. The rankings of all evaluators will be totaled for each finalist in order to determine the sum of the individual rankings. The finalists will be ranked in descending order of recommendation using the sum of individual rankings from the Selection Committee members. Should a tie exist for the highest ranking firm on the contract/project, and qualifications appear to be equal, the Selection Committee shall defer to the sum of the individual points and the award shall be made to the finalist with the highest sum.

Negotiations will then be initiated with the top-ranked firm to finalize the terms and conditions of the contract, including the fees to be paid. In the event a satisfactory agreement cannot be reached with the highest-ranking firm, GDOT will formally terminate the negotiations in writing and possibly enter into negotiations with the second highest-ranking firm, and so on in turn until a mutual agreement is established and GDOT awards a contract. The final form of the contract shall be developed by GDOT.

Please address any questions you may have to Charnele Dobbins, and congratulations again to each of you!

Charnele Dobbins cdobbins@dot.ga.gov 404-631-1425

| stays on top of the schedule and informs GDOT PM quickly if issues arise" and "The consultant has produced quality deliverables that received high scores/rating. The consultant project leader has been a great resource for the GDOT PM to address project activities. Project has needed the schedule to be shifted due to scope changes and environmental impacts that were not a result of consultant performance." Based on GDOT Office of Program Delivery reviews, from a sample of twenty (20) evaluations from projects in 2020, the firm received mostly positive comments. From GDOT Office of Bridge Design reviews, from fourteen (14) total plans, the firm received an average score of 81.4 out of 100%, and their final plan score of 89.2 out of 100%. Overall, the firm received high reviews from both State and local governments for their performance on past projects. | | | | |
| RFQ | RFQ-484-051121, Contract 9 | PHASE 2 SUMMARY COMM | IENTS | |
| Firm | Atlas Technical Consultants, LLC | | | |
| Technical . | | Assigned Rating | Adequate | |
| Atlas' technical approach mentions they plan on using a single span structure, if the culvert is not a desirable option. For Environmental, the firm is knowledgeable and aware of survey seasons to plan their deliverables. To address OMAT concerns, the firm will utilize a task order for BFI. The firm will create a team designated for project controls, who will meet internally ahead of baseline dates to deliver project deliverables early. Their project manager will initiate preliminary plans scoping after receiving the environmental resource ID. For addressing unforeseen project challenges, the firm plans to work closely with GDOT's Office of Environmental Services to minimize impacts to the surrounding area. However, the firm did not present or address any design challenges and the firm provided a general summary of their overall approach, and the evaluation team would have preferred more details on how the firm plans to deliver the work. | | | | |
| Past Perfo | rmance | Assigned Rating | Adequate | |
| Comment | eived an overall score of 3.40 out of 5.00 from two (2) r s stated "Provided good communication and coordina r to keep a successful project on schedule" and "met | ation as part of the Design-Build Team v | | |

| RFQ | RFQ-484-051121, Contract 9 | PHASE 2 SUMMARY COMMENTS | | |
|--|---|--------------------------|----------|--|
| Firm | Infrastructure Consulting & Engineering, PLLC | | | |
| Technical | Approach | Assigned Rating | Marginal | |
| ICE's technical approach presented alternatives that did not consider project budget. The alternatives and relocations proposed (such as adding a wall) would add more time to scope and costs. The firm will implement a reasonable procurement plan. Most of the strategies outlined are routine. The firm cited a challenge, which was the nearby intersections; and their plan to mitigate this was to install roundabouts and realign the road, which will alleviate the need for an off-site detour. The firm provided a general summary of qualifications, skills, and knowledge. Overall, the evaluation team expected more details on how the use of their team will benefit the project. | | | | |

The PM and lead designer's communication with the GDOT far exceeded my expectations. This consultant stays on top of the schedule and informs GDOT PM quickly if issues arise.

This consultant was managed very well by the PM and the design lead. The design lead would inform GDOT PM as soon as any issues arose and beat deadlines whenever possible. Would highly recommend this consultant for future work with GDOT.

The consultant has produced quality deliverables that received high scores/rating. The consultant project leader has been a great resource for the GDOT PM to address project activities. Project has needed the schedule to be shifted due to scope changes and environmental impacts that were not a result of consultant performance.

Kimley Horn's team provided great design services for the development of construction and right of way plans for this project, which consisted of the widening of Spalding Drive from Winters Chapel Road to SR 140/Holcomb Bridge Road from 2 to four lanes with a center lane from west of River Exchange Drive to SR 140/Holcomb Bridge Road. It also includes the replacement of the existing bridge over Crooked Creek with a new bridge and the replacement of the existing traffic signal located at Winters Chapel Road and River Exchange Drive with new traffic signals. Kevin Ergle, Kimley Horn's project manager, and his team were very responsive in the development of the construction plans for this project. We are very appreciative of all the efforts with the early coordination with our Department of Water Resources and ourselves to discuss alternatives for the staging for the replacement of the existing bridge. We are very pleased with Kimley Horn's work.

although these projects fell behind schedule, the consultant team worked together to resolve issues and submit per the recovery schedule. Consultant PM was proactive and helpful to bridge these projects through various activities.
