

October 16, 2008

Thank you for attending the Public Information Open House for Project NHS00-0000-00(763), P.I. No. 0000763, Cook County, the proposed reconstruction of two interchanges located at CR 240/Old Coffee Road and CR 216/Adel Quitman Road and I-75. In this handout package you will find a project description, location map and comment card.

As you enter the room, you will notice displays of the proposed project. Department of Transportation (DOT) representatives, who can be identified by the nametags they are wearing, are available to discuss the project and answer your questions. Please take this opportunity to discuss the project with a DOT representative. There will be no formal presentation.

A court reporter will be available for those persons who would like to make a verbal statement about the project. You may also complete a comment card and deposit it into the box provided here or send in written comments about the project until October 30, 2008. Written comments should be sent to Mr. Glenn Bowman, P.E., State Environmental/Location Engineer, Georgia Department of Transportation, 3993 Aviation Circle, Atlanta, Georgia 30336-1593. Comments can also be made via the web at www.dot.ga.gov. Click on **General Public** from the **Custom Links** menu located on the right side of the page, then click **Public Involvement** under the **Citizens** column, and click **Public Outreach**. All comments will be made a part of the project record. We hope you will take advantage of one of these opportunities to let the Department know your view of the proposal.

The displays and plans will be available for review for ten days after the public information open house at the Georgia Department of Transportation District 4, Area 8 Office located at 321 Kinard Bridge Road, Lenox, Georgia, 31637. A copy of all comments received will be available for public review at this same location and at the Office of Environment/Location, 3993 Aviation Circle, Atlanta, GA 30336-1593, as soon as compilation is completed.

Again, thank you for attending this Public Information Open House and for giving us your comments. If you should have any questions or need additional information, feel free to contact the project manager, Steve Adewale at (404) 631-1578 or Katherine Russett at (404) 699-6882 of the Office of Environment/Location.

Sincerely,

A blue ink signature of Stanley Hill, written in a cursive style.

Stanley Hill
Assistant State Consultant Design Engineer

Project NHS00-0000-00(763), Cook County, P.I. No. 0000763

Reconstruction of the I-75 Interchanges at CR 240/Old Coffee Road and CR 216/Adel Quitman Road

Project Description

The proposed project would reconstruct two interchanges along Interstate 75 (I-75) in Cook County, CR 240/Old Coffee Road and CR 216/Adel Quitman Road (see **Figure 1**, Project Location Map).

The interchange at CR 240/Old Coffee Road would be designed utilizing a standard diamond interchange configuration. The proposed typical section along CR 240/Old Coffee Road would consist of two 12-foot travel lanes (one lane in each direction) with a 14-foot center turn lane and 4-foot paved outside shoulders.

The CR 216/Adel Quitman Road interchange would be designed utilizing a compressed diamond interchange configuration. However, the existing northbound entrance and exit ramps would be shifted approximately 50 feet to the east and provide approximately 660 feet of spacing between ramps. The frontage road would also be shifted approximately 850 feet west of the southbound ramps. The proposed typical section along CR 216/Adel Quitman Road would consist of two 12-foot travel lanes (one lane in each direction) with a 14-foot center turn lane and 4-foot paved outside shoulders.

I-75 entrance and exit ramps at both locations would consist of one 16-foot lane, 8-foot paved outside shoulders and 4-foot paved inside shoulders.

Proposed right-of-way would be approximately 150 feet wide along both county roads. Additional right-of-way along I-75 would also be required to construct the new ramp locations both north and south of the interchanges. Total project length is approximately 2.0 miles along CR 240 and CR 216 and approximately 5.0 miles of ramp reconstruction.
