Ê Glossary (printed from website)

Ê FAQ's (printed from website)

## Meeting Exercises

### Identify Existing Conditions

Meeting participants are asked to identify environmentally sensitive areas on a display showing existing conditions. This input a more complete picture of the surrounding environment and may help uncover environmentally sensitive features that are not commonly known.

### Prioritize Need and Purpose

Meeting participants are asked to prioritize project the needs in the corridor and help refine the project need and purpose statement. This input assists in the identification of potential alternatives.

### Project Introduction/Public Participation Survey

Meeting participants are asked to complete a survey dealing with overall project scope and issues and current public participation efforts (printed from the website).
