RE: Jimmy DeLoach Connector Project / PI # 0008690 / CSMSL-0008-00(690) / Chatham County
Right-of-Entry Notification

To Whom It May Concern:

We are requesting your cooperation in our continuing effort to provide a safe and efficient transportation system for the people of Georgia.

Field surveys are scheduled to begin soon in the vicinity of your property for the purpose of gathering the information necessary to design the below referenced project. The survey will also include the identification of streams, wetlands and open waters. GDOT has contracted with the Consultant firm listed below to provide professional services for this project.

During the course of our work, it may be necessary for personnel to enter upon your property as provided for by Georgia Law, Code 32-2-2(9) which states: The Department and its authorized agents and employees shall have authority to enter upon any lands in the State for the purpose of making such surveys, soundings, drillings and examinations as the Department may deem necessary or desirable to accomplish the purpose of this title, and such entry shall not be deemed a trespass, nor shall it be deemed an entry which would constitute a taking in a condemnation proceeding, provided that reasonable notice is given the owner or occupant of the property to be entered and that such entry shall be done in a reasonable manner with as little inconvenience as possible to the owner or occupant of the property. Please be assured that this work will be done in a professional manner with as little inconvenience to you as possible.

The identifying information for this project is as follows:

Project Description: The Jimmy DeLoach Connector will be on new alignment beginning at Bourne Avenue/SR 307 between SR 25 and SR 21 and will continue north to terminate at the existing eastern end of Jimmy DeLoach Parkway. The alignment parallels SR 21 to the east. New interchanges are to be constructed at both Grange Road and Jimmy DeLoach Parkway. The proposed roadway will be limited access with four 12-foot wide travel lanes (two in each direction) separated by a median barrier. The section north of Bonnybridge Road to Jimmy DeLoach Parkway will be separated by a grassed median of varying width. The proposed project length will be approximately 3.1 miles.

The following contact information should be used regarding any questions you have about the project or the work to be performed.

GDOT Project Manager - Andrew Hoenig, 404-631-1757

Design Manager - Tom Montgomery, The LPA Group/a Michael Baker Company, 770-263-9118

Survey Manager - Jeff Netzing, Hussey, Gay, Bell & DeYoung, 912-354-4626

Archer Western Contractors, Steve Hausler, Jr., 404-926-0727

I sincerely appreciate your cooperation and regret any inconvenience this work may cause.

Sincerely,

Darryl D. VanMeter, P.E.

State Innovative Program Delivery Engineer
