

# GDOT Publications Policies & Procedures

---

**Policy:** 4170-5- Hydraulics Engineering Field Report

**Section:** Hydraulics

**Office/Department:** Office of Bridge Design

**Reports To:** Division of Engineering

**Contact:** 404-631-1000

Linked to this document is a copy of the new "[Hydraulic Engineering Field Report](#)". This new form should be filled out and sent in to this office, along with the Roadway Plans, for each stream crossing that is to be constructed in your District. This includes bridge widening projects, bridges on new locations, and bridge replacement projects, whether they are being replaced with a new bridge or culvert.

Please contact this office if there are any questions.
