Stephen, Leon:

Please submit (or resubmit if I have overlooked) the estimate for crossing surface work at the subject crossing. Please estimate for widening from existing 23.5' to 32'.

Thanks

James Key Phillips

Key – Sorry for the long response, I'm just now getting up to these emails. I've attached the modified cover plan. We're still awaiting a estimate from Leon for the surface work. He should have it returned shortly.

Thank you,

Stephen Klinger | Administrator Grade Crossing Program | Norfolk Southern Corp.

Stephen,
Have you had an opportunity to address the comments listed below regarding the subject project.
Please submit revised FA plans & estimate as appropriate.

Mr. Klinger,

The plans and estimate for the subject project have been reviewed and found satisfactory subject to the following:

- Increase signal "B" offset from 8'-3" to 10' to avoid Gas line conflict.
- Dade County has agreed to provide the pipe extension in B Quadrant.
- The crossing surface will need to be widened to provide 4' of additional width outside the 10' travel lanes. Reference GDOT Standard 9021A and O.C.G.A. § 32-6-190 (both attached).
- Provide verification that the remote shelter (uni-shelter) and its components are necessary to provide signals at the Carroll Road location.

Please revise plans and estimate as appropriate to address these items and return to this office.

If you have questions on this matter please contact Mr. Michael Nash, Railroad Crossing Program Manager at 404-631-1375 or by email mnash@dot.ga.gov or Key Phillips @ 404-631-1376, email jamphillips@dot.ga.gov.

Thanks,
James Key Phillips

Michael,

Attached find the detail estimate, material list and plans for the above subject crossing. If the plans and estimate are satisfactory, please submit a Force Account Agreement for review and execution. If you have any questions or concerns, please let us know.

Thanks,

--mike--

This is to acknowledge receipt of the state's request for modification of grade crossing warning devices at the above referenced location.

During inclement winter weather, Georgia DOT commits to achieve and maintain passable road conditions on two lanes of interstates first and then state routes from the most heavily traveled to the least traveled. The Department urges travelers to exercise caution, be patient, and call 511 for updated information on roadway conditions before getting on the road during a winter weather event.
