

October 8, 2015

Thank you for attending the Public Information Open House for the proposed roundabout at SR 275 at CR 307/Rincon-Stillwell Road, PI Number 0009872. Our goal is two-fold: 1) to provide you with information on the proposed project and 2) to provide an opportunity for you to give us your comments on the proposed project. In this handout package, you will find a description of the project, a location map, and a comment card.

As you enter the room, please take a look at the project display. Georgia Department of Transportation (Georgia DOT) representatives, wearing nametags, are available to discuss the project and answer your questions. There will be no formal presentation.

We hope you will take the opportunity to tell Georgia DOT what you think. Listed below are several ways to comment on the project. Your comments are important to us and, should you provide comments by one of the methods noted below, we will respond to you in writing usually within 30 days of the close of the comment period. All comments will become part of the project's official record.

While you are attending the open house, you can **provide your comments today** by filling out the comment card provided with this handout and dropping it in the comment box, or you may choose to provide your verbal comments to the court reporter who will transcribe your comments.

You can also **provide your comments by Monday, October 19, 2015** by using either of the following methods:

- Online at www.dot.ga.gov/PS/Public/PublicOutreach.
 1. From the menu, select the county in which the proposed project is located and click *Go*;
 2. Then select *SR 275 at CR 307/Rincon-Stillwell Road*;
 3. Lastly, click *Comment* and follow the instructions to leave your comments.
- Mail in your comment card to Ms. Hiral Patel, P.E., Georgia Department of Transportation, 600 West Peachtree Street NW, 16th Floor, Atlanta, Georgia 30308.

The project displays and plans will be available for review for ten days after this open house at the website noted above. Hardcopies will also be available at the Georgia DOT District 5 Office located at 204 North Highway 301, Jesup, Georgia. Following the ten-day public comment period, a copy of all comments received will be available by request at the Atlanta address listed above.

Again, thank you for attending this open house. If you should have any questions or need additional information, feel free to contact the project manager, Cassius Octavius Edwards, at (912) 530-4370 or the environmental analyst, Theresa Piazza, at (404) 631-1872 of the Office of Environmental Services.

Sincerely,

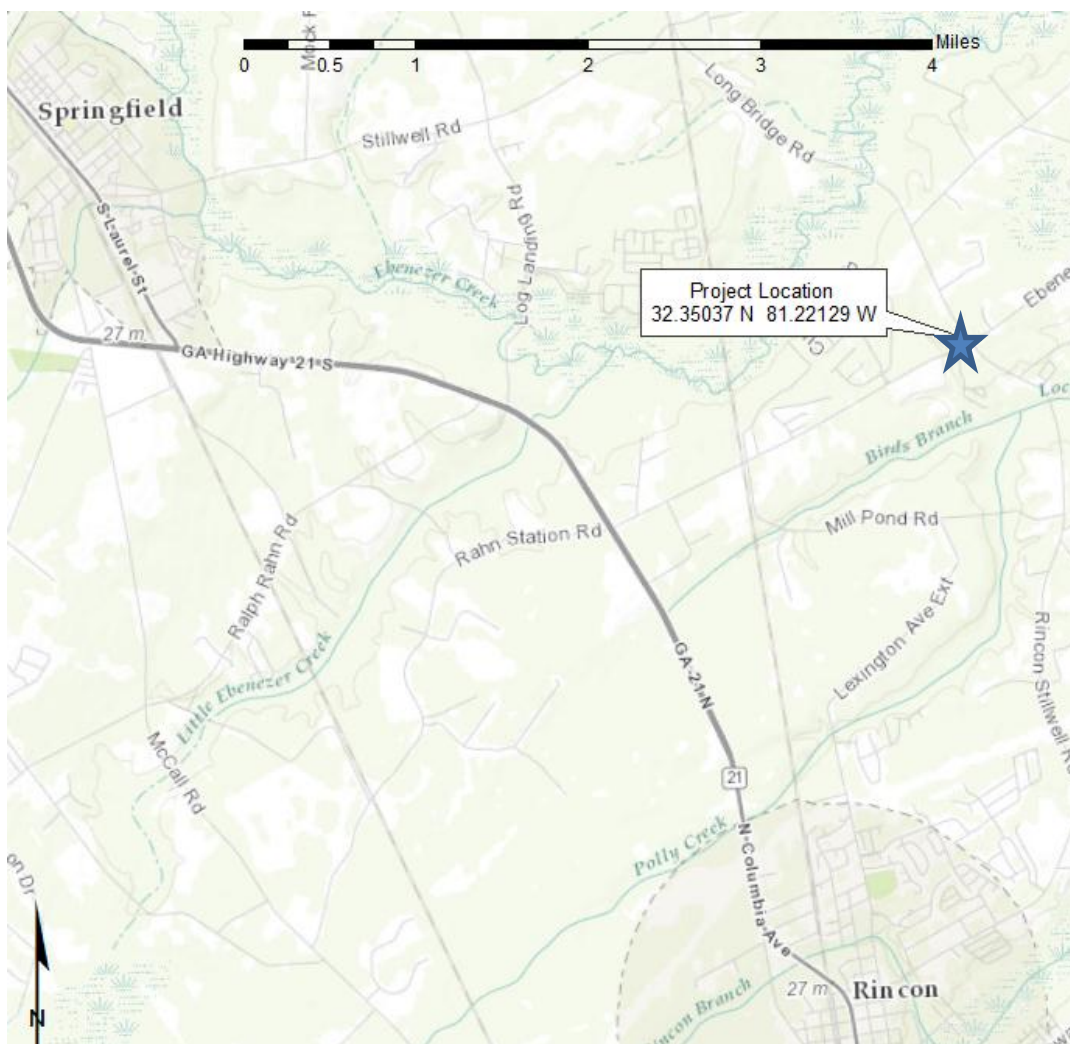

A handwritten signature in blue ink that reads "Hiral Patel - SP".

Hiral Patel, P.E.
State Environmental Administrator
Georgia Department of Transportation

Why We Are Here: Effingham County has experienced population growth. SR 275/Ebenezer Road provides a connection between the City of Rincon and the Savannah River. CR 307/Rincon-Stillwell Road provides a connection between the City of Rincon and the community of Stillwell. The purpose of the proposed project is to improve the operational efficiency of the existing intersection of SR 275/Ebenezer Road and CR 307/Rincon-Stillwell Road and reduce the frequency and severity of crashes at the intersection and approaches. Nationally, intersection crashes account for 40 percent of all reported accidents. There were 16 reported accidents, including 9 accidents with injuries, in the vicinity of the intersection from 2004 to 2013.

Project Description: The proposed project would consist of reconstruction of the intersection of SR 275 at CR 307/Rincon-Stillwell Rd. in Effingham County as a roundabout. In the project area, SR 275 is a two lane rural major collector with a posted speed limit of 55 mph and an Annual Average daily Traffic (AADT) of 880 vehicles per day. CR 307/Rincon-Stillwell Road is a two lane rural major collector with a posted speed limit of 45 mph and an AADT of 2,870 vehicles per day. Currently, the 4-legged intersection is stop controlled on the CR 307/Rincon-Stillwell Rd. approaches with no turn lanes in any direction. Improvements would be designed to enhance safety and improve operational efficiency at the intersection. The amount of required right-of-way (ROW) needed for project implementation has yet to be determined.
